# PEKING PROTESTS TO SOVIET GOVT.

## OPPOSITION TO PACT WITH GEN. CHANG VOICED

**Tells Russian Ambassador  
Government Will Not  
Recognize Any Pact Be-  
tween Manchurian Lead-  
er and Soviets.**

(By The Associated Press)  
PEKING, Sept. 26.—The Chinese foreign office has lodged a protest with the Russian ambassador here against the reported signing of an agreement by Russia with General Chang Tso-Lin, the Manchurian leader now engaged in a war with the Peking government.

According to reports received by the foreign office, General Chang was accorded recognition in exchange for a pledge to Russia that he would not interfere with the operation of the Chinese Eastern railway which was built by Russia during the czarist regime. Under an agreement between the government and Russia, made last May, China is to purchase the road, owned largely by foreign stockholders, at a price to be fixed later.

General Chang refused to recognize the Peking government but under pressure of Soviet interference from the north, was reported to have made a separate agreement respecting the road.

The Chinese foreign office reminds the Russian government in its protest that Chang is in open rebellion against the central government of China and the Peking authorities will not recognize any agreement made with him.

**BATTLEFRONT IS QUIET**

(By The Associated Press)  
SHANGHAI, Sept. 26.—The battle front between the armies of rival military governors are fighting for possession of Shanghai, was quiet this morning. The lines along the front were unchanged but there is indication that the invaders with superior forces were reinforcing their front near Tai Lake for an offensive against the Chekiang army in the region.

An authentic source today reported the General Sun Chuan Fang, military governor of Fukien province allied with the Peking government and Kiangsu invading forces, has advanced to within 110 miles south of Shanghai, Thursday at 1 a. m.

The Fukien military governor's army did not enter Hangchow but was engaged in the attempt to restore service between Hangchow and Kashiung, a distance of 35 miles, where a number of bridges were reported destroyed Wednesday.

If the military governor is repaired by his troops, the Peking governor plans to use the limited rolling stock available to move his forces to Kashiung, 55 miles south of Shanghai.

**THE ARMIES ADVANCING**

(By The Associated Press)  
MUKDEN, Sept. 26.—The second and fifth armies of Chang Tso-Lin, Manchurian war lord who is opposing the Peking government, are advancing to the southward against the town of Jehol (Cheng-Tu-Fu).

An army under the Chihli general, Fang Tu-Siang, supporter of the Chang government, is believed to be moving on Ku-Pei-Kow, at the point 50 miles southwest of Jehol and 70 miles northeast of Peking.

**ISSUES PROCLAMATION TO PROTECT FOREIGNERS**

(By The Associated Press)  
PEKING, Sept. 26.—General Wu Pei-Fu, military governor of the Peking government, today issued a proclamation declaring that fullest protection would be afforded the lives and property of foreigners.

The foreign legations at Peking yesterday sent memoranda to the Chinese foreign office and to General Chang Tso-Lin, war lord who is opposing the Peking government, declaring that if foreign lives are lost or if the property of foreigners is destroyed, the Chinese authorities responsible will be held to account. The warning was sent in view of the bombing of the border town of Shanhai-kwan by Japanese air squadrons and of reports that General Chang was planning an air raid on Peking.

**Sunken Steamer Blocks Harbor**

(By The Associated Press)  
NEWPORT NEWS, Va., Sept. 26.—The harbor at Port Arthur, Texas, is blocked by a sunken steamer, according to the master of the American tanker Derby Line which arrived yesterday with a cargo of crude oil loaded at Tampico. The steamer was to discharge her cargo at Port Arthur but took it back instead as a result of the harbor being blocked.

**DANIEL REGAN DIES**

(By The Associated Press)  
PETERSBURG, Va., Sept. 26.—Daniel Regan, well known in Virginia in theatrical circles, and former manager of the Academy of Music, this city, died yesterday at his home here. He was 57 years of age. Funeral services will be held tomorrow.

**Davis Club Subscriptions**

The Davis-for-President Club subscription list today went over the \$200 mark and stood as follows:  
Frequently acknowledged \$198.50  
E. H. Marshall 5.00  
Mayor Wooding 5.00  
TOTAL \$208.50

## N. Y. DEMOCRATS DEMAND BEER TRINKLE TAKES A HAND

### WON'T BOTHER CAR OWNER WHO PAID IN TIME

**Governor Takes Up Car  
Registration Row and  
Promises Immunity From  
Arrest**

Governor Trinkle has taken a hand in the smoldering row which has been going on in Danville and elsewhere for several weeks following complaints that state automobile license tags are not being received by the applicants as quickly as they should and that car registration under the new law is also resulting in delays.

In a letter received by Rorer A. James, Jr., the governor in reply to one in which an appeal was made to him in behalf of local dealers who fear a loss of business, he said, in part:

"Mr. Hayes is not going to enforce the law against anybody who has honestly complied with it as far as they can on their part."

In other words this means that persons who have applied within the proper time for licenses and, though they have not got their tags, may operate their cars and need not fear prosecution. This was the main trouble complained of as the purchasers of new cars and more especially second hand cars have faced the prospect of keeping their cars in the garage for weeks until they receive the tags. The governor's timely intervention will eliminate what dealers have characterized as a blow to the car market in Danville and gives main owners who have paid their money to the state the right to operate them without title until Mr. Hayes sends it to him.

The governor goes into great detail into the whole Danville situation, stating that the delay in getting tags is due to the fact that the state motor vehicle commission has not yet received the necessary funds to operate the office of the state motor vehicle commission. He has offered proof that the delay is caused in the commissioner's office and that it is improper for the state official to try and "pass the buck" as he termed it, to his constituents.

The governor calls attention to a new method Mr. Hayes has adopted in dealing with applications made by dealers who are furnished with red envelopes. Once these envelopes are received and the applications are contained in them are attended to that day and the force employed does not stop work for the evening until every application contained in that type of envelope has been filed and mailed off.

As a matter of fact it is known that steps were being taken in Danville to test out the law on the subject and it was planned to secure an injunction on the event the law was applied in Danville after having sent money to the state for title was arrested on that score.

The governor in another section of his letter admits that the new motor law is rather unfortunate due to the fact the transfer was expected to be made too quick and the law did not allow people time for it to be done. Continuing, he says that the law is working as hard as it can and when he does get these things righted, the purpose served, I believe, will be a good one.

Governor Trinkle says in his letter that the state motor vehicle commission has received in the collection of \$350,000 far in excess of the figure reached last August when motor traffic is usually at its height. Road building reached last August when motor traffic is usually at its height. Road building all over the state is also reported by H. G. Shirley state highway commissioner as being on an unparalleled scale.

The motor vehicle commission is reported to be getting 4,000 registration cards a day and, with the almost constant application for tags, congestion has developed though this is now being relieved.

Another of Mr. Hayes's rather pointed letters was received in manuscript by dealers this morning. These purport to be copies of a letter which the "Auto" Information Agency of Richmond, has recently sent throughout the state offering dealers a special form of service in which cars will be registered and licenses procured and sent back in the same day. A scale of fees is given in the letter which is signed E. F. Moore.

Mr. Hayes follows the copy of the agency's letter with the personal statement that his secretary, Moore, is a very ordinary looking gentleman and I am sorry that any dealer should have paid any attention to this letter without taking it up with the office.

While the governor's letter is considered as eliminating one of the principal objections recently raised since it is no longer likely to divert car buyers to Richmond where dealers have an advantage over others in the state, local motor concerns are urging the owners of machines to lose no time in registering their car title for if they put it off until December they will suffer delays in securing their new license tags. No 1925 licenses will be issued without new title law properly complied with.

### The Minister's Daughters

These are the daughters of Rev. Lawrence M. Hight, Ina (Ill.) clerk, 53 man, who has confessed to poisoning his wife so he might wed Mrs. Elsie Sweetin, a member of his congregation. At the left is the elder daughter, Mrs. Marie Eaton of Mt. Vernon, Ill. Mildred, 14, the younger one, is shown at the right.

## DAWES CONFERS WITH LEADERS OF HIS PARTY ON APPOINTMENT

**Leaves On Three Day Political Swing Through Michigan**

(By The Associated Press)  
MINNEAPOLIS, Minn., Sept. 26.—Charles G. Dawes, Republican candidate for vice president, conferred with state leaders of his party and rested here today before turning northward on his three day swing through Minnesota.

Mr. Dawes was due to reach Anoka and make a rear platform speech there at 12:10 p. m. and to arrive at 1:35 p. m. in St. Cloud, where he speaks tonight.

Mr. Dawes declared he was much encouraged by the reception given his address last night at the Minneapolis armory, where he encountered the greatest crowd and the first heckling during his speaking campaign.

The heckling consisted of inquiries put to the nominee from the audience as to charges made by Senator Wheeler of Montana, independent candidate for vice president, in his St. Paul address Wednesday night that Mr. Dawes was to be criticized for his connection with the Lorimer bank case and also for specific instances of an attack on the federal constitution by Senator La Follette.

Mr. Dawes replied with reference to the Lorimer bank case attack that Minneapolis newspapers had characterized it as "vitriolic" whereas, he added, it was more like "sulphurated hydrogen in that it left a disagreeable odor but no mark, as in the case of a vitriolic attack."

When addressing his inquirer as to specific instances of an attack by Mr. La Follette on the constitution, Mr. Dawes read the La Follette platform, declaring in favor of congressional veto of supreme court decisions and added: "You may not be able to understand that, but—"

Cheers from the audience drowned out whatever else Mr. Dawes might have intended to say on that point.

## ABANDON HOPE FOR SHIP AND HER CREW OF 28

**Vessel Missing Since Sunday Believed to Have Sunk With Crew**

(By The Associated Press)  
CLEVELAND, Sept. 26.—Hope that the whaler freighter Clifton with a crew of 28 survived the storm of Sunday and Monday on Lake Huron was abandoned early today. The only hope held out by the Progress Steamship Company, owner of the vessel, was that the boat, more than 80 hours overdue at Detroit, had sunk with her crew and cargo of stone.

The owners of the Clifton have the hope that none of the rowboats, oars or ordinary wreckage from the Clifton has been picked up by the crews of steamers on Lake Huron, or boats sent out to search.

## SAUNDERS IS NON-COMMITAL ON APPOINTMENT

**"Nothing to Give Out" He Says Regarding Selection as Governor's Secretary**

(By The Associated Press)  
PETER SAUNDERS OF ROCKY MOUNT, mentioned as the probable successor to Parke P. Deans, secretary to Governor Trinkle was asked by The Bee this morning whether he could confirm or deny the fact that he had been offered the position. He replied by stating that he had nothing to give out on that subject. The enquiry was directed to him at his home in Franklin county.

It is generally understood in Richmond that the Franklin county man son of the late Congressman E. W. Saunders and a staunch party advocate for many years, will be the next secretary to the governor. Reports of his selection have been rife for some time and there appears to be no question about his appointment and acceptance.

Mr. Deans was recently appointed by the governor in the state industrial commission to take the place of Richard F. Bernier on October 1st and his successor, as secretary, will immediately take up his duties.

Mr. Saunders' non-committal answer today is considered to be due to the fact that he considers it improper to make any statement on the appointment before the state executive gives the announcement to the public.

### Good Morning Judge!

Sanfield Lipscomb and Alfonso colored, were arraigned in the police court this morning on charges of gambling. They were caught yesterday by Police Officer W. C. Talley in a poolroom playing for money. They were convicted and fined \$11 and costs each.

Charges of violating the Layman act against George Gunther and Robert E. Hall were continued.

James Grady and Max Collos, colored, drew fines of \$21 and costs each on statutory charges.

Warrants against S. E. Owen for violating the parking ordinance, L. P. Sanford, defraud and W. W. Chaney, false pretense, were all dismissed at payment of costs.

### Signs Point to Good Business

(By The Associated Press)  
NEWPORT NEWS, Va., Sept. 26.—Ninety-three ships are due to stop at Newport News and Norfolk, between now and November 24 for cargoes and part cargoes according to information compiled by the Hampton Roads maritime exchange. Shipping men say that this is the largest number of craft due in any one month in a long time and that it is a sure sign that business here is on the increase.

### WEATHER FORECAST

(By The Associated Press.)  
WASHINGTON, Sept. 26.—Virginia: Unsettled, probably showers tonight and Saturday. Slightly warmer Saturday.

North Carolina: Showers tonight and Saturday, warmer Saturday in west.

## ALSO DENOUNCE KU KLUX KLAN; ASSAIL G. O. P.

### TRUCK CRANKED IN GEAR CAUSES DEATH OF YOUTH

**Berkeley Humphries of Virginia Wedged Against Tree In North Carolina**

Pinned for forty-five minutes against a stout tree-trunk by a motor truck, the engine of which was running and the rear wheels spinning in wet dirt, Berkeley Humphries, aged 20, of Virginia, was killed at a North Carolina road camp near Greensboro yesterday morning. The body was taken to Virginia, was killed at a North Carolina road camp near Greensboro yesterday morning. The body was taken to Virginia today where interment was made.

It was evident that the youth had cranked the truck while it was in gear, with the result that when the engine took the spurt the truck was forced back the few feet between him and the tree where the continued pressure broke his bones and wrought other severe injuries which must have caused him great anguish. Two colored women passing along the road heard the noise of a motor running. They could not see the vehicle from the road and on investigating they found the boy against the tree with the motor of the engine running fast, the rear wheels churning up the mud. Neither of the two women knew how to stop the engine and both became frightened and ran a mile and a half for help. Men hurried back on foot, carrying their warning and arrived just as another passer-by who had also heard the noise of the motor cut it off. Humphries had been held prisoner by the truck for more than half an hour. He was dead. Examination revealed the radiator had pinned his shoulder, breaking his collar bone, his chest was crushed in all of his ribs shattered and his probably his heart and lungs completely crushed.

### Stone to Probe Corruption Charge

(By The Associated Press)  
WASHINGTON, Sept. 26.—President Coolidge has turned over to Attorney General Stone the investigation of the law enforcement league of Philadelphia that there is "political corruption all down the line in Pennsylvania by federal law holders."

The charges were made in a message to the president yesterday by Wm. R. Nicholson, Jr., secretary of the league in which the president was asked to intervene in the controversy between Mr. E. A. Tamm and his director of public safety, Brig. General Smedley D. Butler.

Mr. Coolidge has given no indication that he will intervene in the controversy. The charges made by the league, however, were given consideration today and placed in the hands of the department of Justice with an accompanying letter.

Attorney General Stone immediately telegraphed Mr. Nicholson asking that responsible officers of the league confer with him relative to charges made by Mr. Nicholson.

Mr. Stone announced that he was making a thorough investigation of the complaint and is prepared "to take such appropriate action as the facts may warrant. Meanwhile, he added, he was asking the conference with the officers of the league."

(By The Associated Press)  
MOSCOW, Sept. 26.—All the facts indicate that a compromise between the interests of the United States and the Russian soviet government is to be desired and that it is quite within reach. Foreign Minister Tchitcherin declared today in a statement to the press that the Russian foreign secretary in a carefully prepared 2500 word letter to the Russian government, marked by high argumentation but marked by forth the Russian point of view on Russo-American relations and according to the interpretation placed upon his declaration by many persons here held out the olive branch to the United States.

"From the fact that the soviet government states the interests of the United States and the government of Secretary Hughes served in the interests of American capitalists, Mr. Tchitcherin said, 'I do not follow that a compromise between the two governments is not possible. On the contrary, all the facts that indicate such a compromise is desired and that it is within reach.'

Concerning Russia's debt to the United States, the Russian foreign minister declared that his government had already offered to negotiate with Washington respecting this question. He cited the recently concluded Anglo-Russian treaty as showing that it is quite possible to make similar agreements with other states which prove profitable to both sides."

Mr. Tchitcherin contends that the argument of Secretary Hughes regarding the irreconcilability of the economic policies of soviet Russia and the United States is without basis, adding "The Anglo-Russian agreement proves that despite the wide difference between the economic systems of England and Russia it was possible to reach an agreement on a basis of equality. It apparently does not enter Mr. Hughes' head that such an agreement between the United States and Russia is possible."

The Russian official gives a detailed sketch of Mr. Hughes' career, attempting to show that he rose to power by serving American banking and capitalist interests. He says that Mr. Hughes' present policy in regard to Russia and its population is in full consonance with his past activity.

## Also Ask Extension of Soldiers Bonus Law to Provide For Dependents of Soldiers Who Lost Lives in France—Assail Republicans.

(By The Associated Press)  
SYRACUSE, N. Y., Sept. 26.—A vigorous denunciation of the Ku Klux Klan and demand for modification of the Volstead act to permit sale of light wines and beer, were the salient features of the Democratic platform adopted at the state convention today.

In naming the Ku Klux Klan, reference was made to the pledge of the national Democratic platform to "defend and maintain the constitutional liberties of all citizens, of all races, of all classes and of all colors, and continues, 'we unequivocally condemn the Ku Klux Klan. It seeks to create intolerance by secret appeal and masked attack against particular classes based on race, religion or color. Its object and its activities are diametrically opposed to the fundamental principle upon which our government was founded and to the liberal principles of the Democratic party.'

"Republican corruption." In Washington, was attacked with particular reference to the oil disclosures and the Fordney-McCumber tariff act. There was also included a plank favoring "extension of the soldiers' bonus law to provide for the dependents of men who give their lives overseas for our country."

**Flood In France Is Growing More Serious Hourly**

(By The Associated Press)  
LYONS, France, Sept. 26.—The flood in the Rhone river valley in this district is becoming threatening. Parts of the wharves here are already submerged and the bad weather continues.

Railroad authorities say it will require at least a week to restore communication with Marseilles.

**GALE IS DEWASTATING**  
(By The Associated Press)  
LAROCHELLE, France, Sept. 26.—A gale is raging along the Atlantic coast of France, blowing down trees, damaging houses and keeping fishing boats in their harbors. Many vessels have failed to make port and it is feared that some have been wrecked.

**STORM IS VIOLENT**  
(By The Associated Press)  
VANES, France, Sept. 26.—A storm of unparalleled violence is reported all along the Brittany coast, rain falling in ceaseless torrents. Mountainous seas are running, keeping the fishermen in port.

**INCOME SHOWS GAIN**  
(By The Associated Press)  
NEW YORK, Sept. 26.—Southern Railway's net operating income of \$2,733,133 reported for August was a gain of more than \$200,000 over August last year although gross revenues of \$12,979,380 decreased about \$700,000. Net operating income for the eight months of 1924 was \$17,550,000, compared with \$16,955,000 for the same period last year. Gross aggregated \$92,932,644, a drop of about \$6,500,000.

**SCOUTING FLEET COMING TO HAMPTON ROADS**  
(By The Associated Press)  
NEWPORT NEWS, Va., Sept. 26.—The United States scouting fleet, commanded by Rear Admiral Newton Curtis, is due in Hampton Roads tonight or tomorrow to spend the week end. The fleet now is engaged in maneuvers at the southern drill grounds and comes to Hampton Roads every week end to secure provisions and give the officers and men shore liberty.

## SOVIET RUSSIA DESIRES COMPROMISE WITH U. S. TCHITCHERIN DECLARES

(By The Associated Press)  
MOSCOW, Sept. 26.—All the facts indicate that a compromise between the interests of the United States and the Russian soviet government is to be desired and that it is quite within reach. Foreign Minister Tchitcherin declared today in a statement to the press that the Russian foreign secretary in a carefully prepared 2500 word letter to the Russian government, marked by high argumentation but marked by forth the Russian point of view on Russo-American relations and according to the interpretation placed upon his declaration by many persons here held out the olive branch to the United States.

# SWEDEN HAPPIEST OF SCANDINAVIAN COUNTRIES

By MILTON BRONNER

STOCKHOLM, Sept. 25.—By comparison with its neighbors, Sweden is the happiest of the Scandinavian countries.

It has the largest population. It has the largest farming area. It has wonderful water power possibilities already largely developed. It has big iron ore resources. Its timber reserves are enormous. Its budget is balanced.

Unlike most of the countries in Europe, its currency, by comparison with the dollar, has maintained its pre-war status instead of being depreciated.

## Housing Shortage.

But like its Scandinavian neighbors, Sweden is suffering from the endeavor of wages to overtake the high cost of living.

It, too, has a housing shortage. It, too, has suffered from business depression. It, too, has had an unemployment problem. And it, too, is unfavorably impressed by our immigration legislation.

The Swedes are "Nordics." They are therefore supposed to be welcome to our country. But, whereas in past times of business depression here as many as 20,000 Swedes entered America in one year, now the quota is rigidly fixed at 5,000. Out on the farms the people resent this. In the big cities industrial leaders like it. If the young men are kept at home, there is a ready supply of labor when business picks up. It all depends upon whose ox is gored.

## Fewer Unemployed.

In Sweden, as in all white men's countries, there has been a flow of people from the country to the cities. And a couple of years ago over 150,000 men were unemployed. This has since sunk to below 40,000, of whom 8,000 received public aid and 19,000 were put on relief works, such as road building.

Although Sweden is nearer to Russia than any of the Scandinavian countries, and although it has political relations with that country, the Swedes have not been able to propagate as they have in Norway.

They went up against a stone wall in the Swedish Social Democratic party, which is one of the strongest in Europe. Under its statesman, H. H. Branding, who not long ago was a premier, the Social Democrats

have held their own. Today in the Riksdag they are the strongest numerically in both houses. Whereas the Communists make a pitiful showing—one member in the upper and seven members in the lower house.

## Socialists Active.

The influence of the Socialists has been felt in wise legislation regarding the eight-hour day, accident insurance and old-age insurance.

But where Sweden stands unique in the world is in its handling of the booze question. The laws are largely the invention of Dr. Ivan Bratt. Hence, they are known as the Bratt system. The whole object has been to restrict drinking on the same time take away from dealers the profit interest in the business.

The sale of spirits is limited to licensed companies, so-called system companies, which, according to the law, are not allowed to give their stockholders a dividend of more than 1 per cent. upon capital invested. Any surplus goes to the State and the municipality. Beverages containing more than 3.6 per cent. alcohol may not be sold for consumption off the premises, otherwise than directly from the shops of the system companies.

The right of purchase with regard to spirits and strong wines, containing more than 22 per cent. alcohol, is generally limited to a maximum of about four litres per month.

## Use Control Books.

Such right of purchase is given to only one person in each family. In the case of liquidation, the control book is either reduced or taken away entirely.

To facilitate control, each person allowed to purchase drink is given a control book, containing requisition slips, which are handed in at each purchase with the signature of the possessor. The right to purchase is limited to the particular shop for which the book has been issued.

With regard to drinking on premises, this license is still given to private restaurant owners, but on conditions which make the economic interests of the restaurant as far as possible independent of the amount of booze consumed.

Each man may receive more than a fixed amount of liquor and even then the drink is served only in connection with meals.

total of soldier life discourages enlistment.

Brakeman on President Coolidge's special, bearing president and party from Philadelphia to Washington, is knocked from train and killed at Baltimore.

## Jail House Sold On Auction Block

(By The Associated Press)

LOWELL, Mass., Sept. 25.—The Middlesex county jail here which has had a death of prisoners for several years, was sold at auction yesterday.

The property was bought by Dr. James B. O'Connor, of Lowell, on behalf of Cardinal O'Connell. No announcement was made as to what use the buildings would be put. Officials said the jail had been "a surplus plant since prohibition was enacted."

Everything in existence deteriorates.

## WOMEN A BUNDLE OF NERVES

"Everything irritates me—I am a bundle of nerves. I ache all over and cannot sleep and am so despondent." This extract from a letter written from one woman to another describes the condition of many women who suffer from feminine ailments. Nothing will relieve this distressing condition so surely as Lydia E. Pinkham's Vegetable Compound, made from roots and herbs. For fifty years it has been restoring sick and ailing women of America to health and strength.—adv.

## HAS POWERFUL RADIO SET

Dr. W. B. Murray, Minneapolis physician, is better known as a radio pioneer and inventor. He records several achievements not only in radio but in line telephony and in X-ray work. He is here shown in his laboratory.

MINNEAPOLIS, Minn., Sept. 26.—Talk about fine tuning—

Dr. W. B. Murray of this city can not only tune in a station to the exclusion of all others, but he can tune out an instrument in an orchestra or a voice in a quartet, that happens to be broadcast.

At the same time he says, by a hair's breadth turn of a dial, he can amplify any instrument he particularly likes, leaving the rest of the orchestra act as accompanists.

This is one of the many remarkable achievements credited to this physician. Dr. Murray is an old hand at radio. In fact, he says he's an older hand than many recognized inventors of the modern high frequency instruments.

Eighteen years before Marconi first sent a message through the air by wireless telegraph, Dr. Murray and C. H. Pryor, former superintendent of the Milwaukee Railroad, talked across Lake Pokegama with a wireless telephone of their own invention, says the physician.

## Builds Own Sets

Now he has a laboratory devoted to radio. He has built two receivers that have recorded messages from all over the world, and that are not affected by static or other form of interference.

One set, Dr. Murray reports, has a 6,000-mile record in reception. That's the reception of a broadcasting station in Tokyo. Besides Tokyo, Dr. Murray has located Buenos Aires, Honolulu, London, Havana and many other foreign stations.

He heard Tokyo on two different occasions.

Yet Dr. Murray is a physician. But a physician who devotes himself more to the inventive side than the practical.

For he has considerable income from royalties for his invention of X-ray apparatus.

Not satisfied with medical practice and radio, he has stepped into the field of telephony and records the perfection of a multiple telephone switchboard to his credit. This instrument enables one operator to connect hundreds of calls without moving from her chair.

Dr. Murray had been chief operator for the local telephone company before he took up medical practice. That accounts for his interest in telephony, both line and wireless. He says he built the first telephone that was ever used in Minneapolis.

Now he likes to offer his services, free to the young radio fans of his neighborhood. He has built many a set for the fans and has shown amateurs how to construct them.

"I fix up as many as half a dozen sets a day for the youngsters," he explains.

from royalties for his invention of X-ray apparatus.

## Telephone Inventor

Not satisfied with medical practice and radio, he has stepped into the field of telephony and records the perfection of a multiple telephone switchboard to his credit. This instrument enables one operator to connect hundreds of calls without moving from her chair.

## Stribling Will Fight In Raleigh Saturday Night

(By The Associated Press.)

RALEIGH, N. C., Sept. 26.—Everything is "all set" for the ten-round bout here Saturday night between W. L. (Young) Stribling, sensational Georgia high school boxer, and Vic McLaughlin, who has been advertised as the light heavyweight champion of Canada.

J. Sherwood Upchurch, well-known local theatrical man, who is promoting the fight, declares that the early ticket sale indicates that the largest crowd that ever witnessed a boxing match here will be on hand for the scrap. Mr. Upchurch further asserted that the bout will be one of the most important staged in this State since boxing was legalized in a number of North Carolina cities.

Stribling and McLaughlin fought to a draw in Savannah in June, 1923, according to Mr. Upchurch, and each is aspiring to the light heavyweight championship of the world. Both boys have fought Mike McGuire, light heavyweight champion of the world. In the event McLaughlin wins over Stribling, Mr. Upchurch states, he will be in line for a fight with McGuire for the world's championship. Under the law no decision can be rendered by the referee.

Eddie Hanlon, professional referee of Atlanta, Ga., will officiate in the ring.

McLaughlin will reach the city early this week and begin training, while Stribling, accompanied by "Pa," "Ma," and "Buddy" Stribling, is expected to arrive in Raleigh Friday morning. Stribling is said to be the pink of condition, having recently engaged in bouts in Ohio, Pennsylvania and New York, including his match with Paul Berlenbach at the Velodrome in New York City.

## EVERYBODY WORKED BUT FATHER

"Father's stomach trouble seemed to be getting worse all the time and finally he had to quit work altogether. Two brothers and myself gave up school and went to work to support the family. Father had lost sixty pounds in weight and was yellow as saffron and no medicine helped him. Telling a friend about it six months ago, she advised taking May's Wonderful Remedy. I got a bottle and it helped father at once. He was able to go back to work a month later, has regained his weight and strength and eats like a wood chopper. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. J. C. McFar's Drug Store and druggists everywhere.—adv.

# BOBBY JONES CRUSHING QUIMET IN FINALS OF TOURNNEY BEING PLAYED

(By The Associated Press.)  
ARDMORE, Pa., Sept. 25.—A golf machine named Bobby Jones, of Atlanta, was working with precision, crushing a star match player, Francis Ouimet of Boston, in the finals of the national amateur tournament. After 18 holes of the 36 holes match had been played Jones was 8 up. Ouimet won only one hole.

Longer from the tee, longer with second shots at the par five holes, more accurate with approaches and putting slightly better, Jones gave the Bostonian one of the most uncomfounding rounds of his career. Jones was in only one trap at a green all the morning. Ouimet was in the sand often with his second shots. Jones never took more than two putts and at two greens had on green and two on putts greens.

Jones shot three over par for the round—a 73 and this excess was due to the only two holes at which he was at off line. At the par four seventh he took a five because of his second shot being a trifle strong. At the home hole, the only one which Ouimet won during the round, Jones hooked his tee shot into trees with the result that it took him four to get on the green.

Bobby ignored the fact that he was playing one of his closest friends and decided to make the battle by shooting for the par of every hole. He usually got it. The cards:

Jones, out 544, 544, 543—37.

Ouimet, out 544, 544, 543—42.

Jones, in 444, 444, 438—72.

Ouimet, in 546, 555, 444—82.

With a putter dipped in mastic, Von Elm had Champion Marston almost dethroned at the luncheon hour, having an approximate medal score of 7 to the champions 84.

(By The Associated Press.)

ARDMORE, Pa., Sept. 25.—The National Amateur Golf Tournament is in the semi-final round today with Robert T. Jones, Jr., of Atlanta, playing Francis Ouimet of Boston, and Max E. Marston of Philadelphia, the defending champion, meeting George Von Elm, of Los Angeles.

Jones and Ouimet are sorry the luck of the draw has led them to try to eliminate each other on the next to the last step to the throne. There are no closer friends in the game.

When Jones won the open championship at Inwood last year, it was to a joyful line. Ouimet gave the ball with which he won his first and only national title on the links. It was Ouimet who guarded Jones from

a horde of wellwishers and took care that he got enough sleep for the crucial playoff with Bobby Crockett. These friends have met once before, the competition for the final amateur crown. In 1920 Ouimet eliminated Jones by 6 and 5 in a semifinal match. Ouimet advanced yesterday by defeating another friend, Jesse Guind, of Boston, while Jones continuing the excellent golf that he has displayed throughout the tournament eliminated R. E. Knepper of Chicago, 6 and 4.

Marston and Von Elm have never met before in national amateur matches.

Von Elm eliminated E. H. Driggs, Jr., of New York, 7 and 6.

Jones was four up at the ninth.

Each had a five, one over par, on the seventh, missing six-foot putts.

Jones won the eighth in par four. Ouimet taking two shots out of a trap.

Jones played a stylike for a hole at the ninth in par three. He was four up at the turn with a medal of 37, one over par.

Ouimet took 42.

George Von Elm, of Los Angeles, was two up on Champion Max R. Marston of Philadelphia at the fourth hole, due to a startling recovery by the westerner on the third and three shots to trouble by Marston on the fourth.

Von Elm sank long putts to have the fifth and sixth.

Continuing his machine like golf, Jones took the tenth hole with a par four, Ouimet being trapped on his second shot.

The eleventh was halved in par four.

Jones became six up at the twelfth with another par four, Ouimet being trapped on his second shot.

The thirteenth was halved in par three.

Marston captured the seventh hole when the wind took Von Elm's pitch shot and he chipped short of the pin, the champion becoming one down.

They halved the eighth in par, Marston making a brilliant recovery from Sand after losing his drive.

Von Elm drove into the brook in the ninth but won the whole won Marston used three putts, going to the turn one up.

Jones became 7 up with a par four at the 14th, Ouimet making his usual visit to a trap.

Bobby's lead rose to 8 at the 15th as the result of a par four and Ouimet likewise for traps.

There will be representatives of the American Institute of Homeopathy of Cleveland, Chicago and a delegation representing the south. Dr. Sawyer was a former president of the institute.

Mr. Crissinger, it was declared, is here simply as a friend and not in any capacity as an official representative.

Dr. Sawyer, who served for a time as medical adviser to President Coolidge after the death of Mr. Harding, has been doctoring all of his time to the cause of the Harding memorial association, of which he was president, and it was believed that overwork in that endeavor hastened his end.

Mr. Harding's death was announced Tuesday in his office, of heart disease.

Services today at both the Sawyer home and at the cemetery will be brief and private in nature, according to announcement. Burial will be made in the Sawyer plot, not far from the Harding tomb.

Marion streets were thronged today with friends of Mr. Sawyer who have come from over the country for the funeral, which probably will be held about 3:30 o'clock p. m., the services at the home having been set for 2:30 o'clock.

Among those who will attend the funeral services are D. R. Crissinger, governor of the federal reserve board at Washington, former U. S. Senator Joseph Freilighyusen, New Jersey, assistant President Harding member, campaign and Harry M. Daugherty, former attorney general.

(By The Associated Press.)

MARION, O., Sept. 26.—Brigadier General Charles E. Sawyer, personal physician to President Harding and medical adviser to the Harding family, will be buried in Marion cemetery today after brief exercises. Dr. Jesse Swank, pastor of Epworth Methodist Episcopal church, who has charge of the Harding service, will officiate at the graves. Mrs. Florence Kling Harding, the former chief executive's widow, who has been making her home at White Oak since Mr. Harding's death, was present.

Dr. Sawyer was found dead Tuesday in his office, of heart disease.

Services today at both the Sawyer home and at the cemetery will be brief and private in nature, according to announcement. Burial will be made in the Sawyer plot, not far from the Harding tomb.

Marion streets were thronged today with friends of Mr. Sawyer who have come from over the country for the funeral, which probably will be held about 3:30 o'clock p. m., the services at the home having been set for 2:30 o'clock.

Among those who will attend the funeral services are D. R. Crissinger, governor of the federal reserve board at Washington, former U. S. Senator Joseph Freilighyusen, New Jersey, assistant President Harding member, campaign and Harry M. Daugherty, former attorney general.

(By The Associated Press.)

MARION, O., Sept. 26.—The unfinished chamber of commerce stake in three heats features today a grand circuit card. In addition there are four class races on the card, with most interest attached to the 2:07 pace and the 2:05 trot. The 2:16 pace and 2:13 trot completes the day's card.

HAMMOND, La., Sept. 26.—Hammond women may now wear knickerbockers and one-piece bathing suits, drastic changes prohibiting both garments in Hammond was repealed when clothing merchants protested that their sales had been cut in two and that they were in danger of being ruined this summer.

(By The Associated Press.)

WASHINGTON, Sept. 26.—Associates at the Navy department of Assistant Secretary Roosevelt regretfully, but with ready congratulations on his nomination for governor by the formally presented his resignation as assistant secretary of the navy which was accepted by the president.

An unparalleled majority for the republican ticket from President Coolidge down was predicted by Mr. Roosevelt, speaking of the New York situation. He will leave Washington tonight for Orster Bay where he will be formally notified of his nomination Wednesday.

As Mr. Roosevelt left the White House, he met Edward A. Simmons, New York publisher, and during the conversation Mr. Simmons wrote out a check, described as the first campaign contribution for the republicans in New York.

(By The Associated Press.)

PHILADELPHIA, Sept. 26.—President Coolidge commemorated the 150th anniversary of the meeting of the First Continental Congress here last night with an appeal that people resist the encroachments on the constitution written here by our fathers.

These encroachments, the president said, are found today in proposals for government ownership of railroads and for limitation of the power of the supreme court.

The president drew vigorous applause when he warned that "if we wish to maintain what our fathers here established, we shall do well to leave the people in the ownership of their property, in control of their government and under the protection of their courts."

Mr. Coolidge drove through lanes of cheering citizens to and from the hall where he spoke. The visit however, was brief, the president arriving shortly before the hour set for him to speak and returning to the train for the trip back to Washington immediately upon conclusion of the exercises in the academy of music.

City Attorney A. M. Aiken is in Richmond today on business.

J. W. Benton spent today attending the circuit court at Chatham.

Miss Mary Elizabeth Clark left a few days ago for Harrisonburg, where she will enter State Normal School.

Mrs. Hallie Brooman, of this city, and her niece, Mrs. Harold Taylor, motored from Greensboro to visit her sister, Mrs. Thomas Taylor in Roanoke.

salad and ice courses were served and prizes were given boxes of stationery to the guest and rub member winning top-score. Miss Martha Fitzgerald receiving the former and Miss Elizabeth Taylor the latter prize. Those present were: Misses Elizabeth Taylor, Margaret Jordan, Kathryn Hines, Elizabeth Taylor, Bernice Booth, Martha Fitzgerald, Annie James, Charlotte Crews, Eleanor Guerrant, Mesdames Arch Gravelly, James Bustard and Lee Overman, Gregory, of Salisbury, North Carolina.

**Pictures At Hill-Top.**  
By the courtesy of the Broadway theatre, the people at Hill-Top Sanitarium were given the pleasure of an excellent screen-comedy last evening. Owing to the very hot weather recently, the regular Thursday evening entertainments was discontinued, and this was the first screen-evening since early in July.

Last Tuesday evening devotional services conducted by M. L. Skates, educational director of the First Baptist Sunday school, were held at the sanitarium.

**Telephone orders will be supplied by Mrs. C. N. Riddle, chairman of the committee, Phone 217.**

**Mrs. Johnson Entertains.**  
Miss Marie Winkler, the charming bride-elect, whose marriage will take place next week, was guest of honor at an unusually pretty affair given at the home of her mother, Mrs. J. B. Thornton, on Lee street. The bride tables were arranged with white covers and upon each was a vase of pink and white flowers. The favors were dainty bride's glimmers, rings and bells, with a miniature bride and groom for the honor-guest. After the game of bridge, a salad course was served. Those present besides the hostess and the guest of honor were: Miss Virginia Winkler, Maude Blair, Ruth Flippin, Ethel Gibson, Helen Alverson, Louise Blair, Beesie Thornton, Mesdames Clyde Barker, J. E. Fagge, C. B. Bailey, J. A. Newman.

**Party At Stokesland.**  
Miss Mabel Milam entertained a party of her friends Thursday evening at her home in Stokesland, with an informal dance and games. Those present were: Misses Elizabeth Oakley and Ethel Ward, Nell Hawker, Elizabeth Green, Mattie Gravelly, Mattie Taylor, Messrs. Percy Shelton, Virgil Taylor, Glenn Rainey, Roy Fowkes, Russell Turner, A. D. Browder, Dr. Paul Comer, Howard Gravelly, Charles Prescott, Martin Russell, Ray Winkler and others.

**Birth Announced.**  
Mr. and Mrs. George N. Miller, have announced the birth of a daughter, Anne Williams on Wednesday, at the General Hospital.

**Garden Club Meeting.**  
The Virginia Avenue Garden Club met yesterday afternoon with Mrs. C. Yeatts. About twenty members were present and a very pleasant time was spent. The next meeting will be held October 8th at the home of Mrs. E. B. Wood, and T. M. Myers will give a talk, his subject being "The Street Beautifier."

**Miss Penn Hostess—Bridge Club Reorganized.**  
Miss Mabel Penn was hostess to the Thursday Afternoon Bridge Club yesterday, entertaining a number of visitors. The club members met at 3:30 o'clock for a short business session after which visitors arrived, and the game began at four. The living room and library were attractively decorated with begonia, and nasturtiums. After the game,

**Angus McLean Is Heard On Issues By Caswell People**

(Special to The Bee)  
TANNEYVILLE, N. C., September 26.—Angus W. McLean, democratic nominee for governor of North Carolina in the November election spoke in the courtroom here last night for an hour and a half during which time he discussed at length the issues of the campaign both from the national and state standpoint. Possibly four hundred people were on hand and gave him a flattering reception, applauding him frequently at telling points of the address. He was introduced by T. S. Neal Caswell county's democratic nominee for the state legislature. After this speaking the candidate for governor held an informal reception and many people shook hands with him. It was his first visit to Caswell in the present campaign. He returned late last night to Raleigh where he spoke on Wednesday night.

**Globe Fliers Reach Santa Monica After a 24-Hour Delay**

(By The Associated Press.)  
SAN FRANCISCO, Cal., Sept. 26.—The army round the world fliers, who arrived here yesterday, from Santa Monica, rested today, a 24-hour delay being occasioned by the forced landing of the Boston II, at South San Francisco when battery trouble developed.

The fliers plan to leave here tomorrow morning for Eugene, Oregon, the last official stop before reaching Seattle, Washington, terminus of the flight.

The fliers expect to return here within a few days on their homeward journey to Santa Monica. At that time they will be presented with a purse of nearly \$3,000.

**WEDDING LICENSES ISSUED**  
Wedding licenses have been issued by the clerk of the corporation court to Willie A. Amos and Nellie M. Amos, of Greensboro, and to Bailey M. Smith and Minnie Lee Ray, of Greensboro, N. C.

Three men who failed to escape from the Atlanta (Ga.) pen must wait the winter in jail, where it is cold and warm.

Dr. Yen heads the Peking government, proving even a name which sounds like money counts.

## The Tangle

An Intimate Story of Intermittent Emotion Revealed in Private Letters

LETTER FROM LESLIE PRESCOTT TO RUTH BURKE, CONTINUED

"All right, I'll send him a bill if you're sure it's a cheese," said the accountant to the old storekeeper. The accountant sent the man a bill for the cheese. The supposed debtor wrote back very indignantly saying he was a hardware dealer, and never bought a cheese in his life. The old man scratched his head. He seemed to be all at sea; then his eyes brightened. He drew the paper toward him and put a little o inside the big O. Handing it back to the accountant he said as though everything was now explained:

"There it is. I forgot to put the hole in the cheese. Its a grindstone he owes me for."

Ruth, I hope I'm not trying to make Jack pay me for a cheese when it is a grindstone for which he is in my debt. I am insisting that he apologize for what he said to me about Karl's telephone, because I think he is jealous of Karl and thinks me disloyal. Perhaps he is neither jealous of Karl nor doubtful of me, but knowing it would be impossible for him to give me such a wonderful present, he is hurt that I have accepted them from another man.

Now here, Ruth, is my worst trouble. I don't think dad is getting along as fast as we could wish. In educational takes the most pessimistic view of his condition. True, dad himself is very optimistic, and keeps talking about when he will get up again, but I don't like his wanting to have John come here and take his place. This isn't his due a bit, if he thought he would ever get back into harness.

Poor, poor mother! She is one of those women who is more of a wife than a mother. Although she loves us devotedly, I do not think there was ever a time in her life she did not have sacrificed both Alice and me for dad any day.

They've been particularly a happy couple. Sometimes, though, I think I will ask mother if when they were first married it did not take them a little while to adjust themselves. I remember her saying one time that people either grow together or grow apart. They have grown together, and now, if anything happens to dad he would be a whole lot better off broken. I dare not think what will become of her.

Well, Ruth dear, this is a terrible letter to write to any one. Let alone a dearest friend. I hope you got out all rid of it and now here she hopes just seems to me as though John and I were having enough misunderstandings and troubles without her making it worse all the time. And as for that old maid, I thought I had got rid of her and now here she hopes again. I'll just have to settle with her in the near future once for all. She almost makes me feel as though when I think of her.

As soon as you get everything settled at the apartment, you would better send me a long night letter collect, for I am very anxious to know exactly what has happened. If she has found the secret drawer in my desk, I will never forgive her. There, I've told it to you, Ruth. There is a secret drawer, and I have found it.

Lovingly,  
LESLIE.

(Copyright, 1924, NEA Service, Inc.)

**TOMORROW: Night letter from Ruth Burke to Leslie Prescott.**

**Halifax Baptists Organize For Year**

SOUTH BOSTON, Sept. 26.—A committee from the thirty Baptist churches composing the Dan River Association met at South Boston yesterday to lay plans for their next year's program, with Dr. T. Ryland Sanford, D. D., of the First Baptist church acting as chairman.

The church accepted a quota of \$42,500.00 and divided among the various churches, and James E. Wilborn was elected as organizer and he expects to place the plans before the churches in the near future. He will be assisted by Rev. T. E. Peters of the Roanoke Association and other workers from the state headquarters in Richmond.

The work of the seventy-five million campaign was brought to the attention of the gathering and the representatives from the various churches expressed themselves as being very hopeful of their respective churches meeting their pledges to this campaign.

Mr. Wilborn placed much stress on the importance of the pastors informing their members as to what would be expected of them, and that he had great confidence in the ability of the pastors to reach their members and that the Baptists of the Dan River Association would do their part.

Contractors met several officials of the State Highway Department here on yesterday looking over the site for the new concrete bridge which will span the Dan River here, and which contract will be let Oct. 2, in the office of the State Highway Department in Richmond, Va., and at the same time a section of concrete road will be let crossing the low grounds from the bridge, the road will be 14 feet wide and the road way on the bridge will be 24 feet, with six electric lights, which structure will require more than eighty five tons of reinforcement steel.

Several contractors were here today looking over the project and it looks that the state should not have any trouble in getting a satisfactory bid on this work.

**Virgilina**

(Special to The Bee)  
VIRGINIA, Va., Sept. 26.—T. W. Sizemore visited his mother Tuesday afternoon near Grassy Creek. Mrs. Sizemore has become very much weaker and no hope for her recovery is held.

W. T. Harris was carried to South Boston hospital Thursday morning to be operated on. He has been very ill. Many friends accompanied him. Those going to be with his wife were Mr. and Mrs. John Daniel, Mr. and Mrs. J. J. Battershell, Mrs. L. J. Chandler and his nurse, Miss Taylor.

Miss Bray, who is in training for a nurse here, spent the week-end with her mother on Route 4.

## MISS AMERICA'S SECRETS OF BEAUTY

MISS AMERICA (RUTH MALCOMSON) AND HER MOTHER.

By MARIAN HALE

Pictures Posed by Ruth Malcomson (Miss America)

Women always have and always will desire beauty above all other endowments of gods or men.

But there has never been a time in the history of civilization when women have been so intelligent in their quest of beauty as now.

We have analyzed the elusive thing we call beauty and found that the main ingredient is health.

The beauty we admire today is not the negative, passive quality that once charmed beholders. It must have vitality, sparkle and glow and be a positive, compelling force.

This type of beauty can not be coaxed out of a powder box or simulated by any cosmetics. It has to be the direct result of healthful living, exercise in the open air, and self-control in the presence of rich and abundant food.

**Health Beauty's Foundation**  
We admit that health alone is not necessarily beauty, but it is the foundation for it. Character, personality, and the forces of heredity and environment mold our features as well.

But if a woman has physical health she has the foundations of beauty. And the two foundations of health are diet and exercise.

In the summer time, exercise is no great problem. Golf, tennis, swimming, riding, hiking and all sports that may be enjoyed in the open air are available.

An hour on the tennis court or golf links will not only give you the fresh air and the exercise that will brighten the eye, and bring the color into your cheeks, but it will give you the happiness that is also a great beautifier.

**Walking Great Exercise**  
If you haven't the facilities for golf or tennis or swimming, don't despise the early morning hike as a beauty exercise.

All you need for that is a pair of good sensible shoes that fit and a tweed or jersey outfit that is loose and hangs from the shoulder. You don't even need a companion. You get all kinds of stimulation alone if you keep your eyes open. Don't just saunter along aimlessly. Quickened your step, exert yourself and fill your lungs with good fresh air as you go.

Always exercise in the open air.

Always exercise in the open air.

Always exercise in the open air.

Always exercise in the open air.

## HELPFUL HINTS

**RAINY DAY WORK**  
When rainy days prevent outside activities, the careful housekeeper will clean bureau drawers, china closets, chests and trunks.

**KEEP SWEET-OIL**  
Always keep sweet oil in the kitchen cabinet to be used immediately in case of burn.

**GROWING MINT**  
Mint will grow in water like other plants if left in a sunny window and given plenty of air.

**KEEPING ICE CREAM**  
Ice cream can be kept perfectly hard for several hours if it is placed in a paper cooking bag with the ends folded tightly to keep out the air, and is placed directly on the ice in the refrigerator.

**WHITEWASH CELLAR**  
The cellar should be whitewashed in the spring or the fall because besides the added appearance of cleanliness it actually does disinfect and purify the place.

## LA FOLLETTE TO MAKE A SWING ACROSS NATION

Will Carry Fight Into Score of States Before Closing Campaign

(By The Associated Press.)  
WASHINGTON, Sept. 26.—Senator Robert M. La Follette, independent presidential candidate, has decided definitely to make a swing across the continent, carrying his fight for votes into at least a score of states before the close of the campaign.

The senator's itinerary will call him into the middle west early in October, on through the northwest and into Pacific coast states. He intends to wage warfare with particular vigor in California where electors pledged to him have been ruled off the ballot, forcing his supporters to vote for electors listed under the socialist's party designation. Several days will be spent stumping the state, with speeches in Los Angeles and San Francisco a certainty.

**NEW FISH STORY**  
TACOMA, Wash., Sept. 26.—Another prize fish story is being told along the waterfront. It concerns a tuna which tied a knot in its own tail. The crew of the Albert Jeffries hooked a 162-pound tuna while passing the Pacific portal of the Panama Canal, and the large fish had frightened out the hook and was falling back into the sea when a flip of its tail near the log line caused a knot to be formed.

**ITCH!**  
Money back without question GUARANTEED SKIN DISEASE REMEDIES (Gust's Salve and Soap), fail in the treatment of Itch, Eczema, Ringworm, Tetter or other itching skin diseases. Try this treatment at our risk.

## ESKIMO IS WORLD'S HAPPIEST MAN

TOP SHOWS MEMBERS OF THE POLAR EXPEDITION UNDER CAPTAIN DONALD B. MACMILLAN. SEATED: CAPTAIN MACMILLAN AND JOHN JYNES, ENGINEER. STANDING: TOM MCGUE, MATE; DONALD MIX, RADIO OPERATOR; EUGENE ROBINSON, WILLIAM LEWIS AND DICK GODDARD. LOWER LEFT SHOWS THE STAINLESS LITTLE SCHOONER BOWDOIN IN WHICH THE RIP WAS MADE. LOWER RIGHT SHOWS THE GREETINGS GIVEN BY PEOPLE OF WISCASSET, ME.

By HAROLD DMATSON  
WISCASSET, Me., Sept. 26.—Found the happiest man!

He is the Eskimo living in the ice, living by harpoon and kayak. He eats seal meat, walrus meat, he eats the eggs of sea birds and he eats dog. He clothes himself with skins. His home is a hole in the ice. He has no money. He has no steam heat. He has no corner drug store. No movies. No booze. But he is happy.

"He is so happy," says Dr. Donald B. MacMillan, arctic explorer just returned from a 14-month scientific expedition in the far north, "that I search visit-in the far north, that I wonder if our talk about our civilization isn't unbecome. The more I know of the Eskimo the more I think that if anybody is civilized on this earth it is this man of the ice."

Dr. MacMillan has lived with the Eskimo. He first met him when he was a member of the Peary expedition, and he has since known him on his own expeditions. The Eskimo knows MacMillan. Each time he comes back to their country they greet him as an old friend, and they help him maneuver his staunch little schooner, the Bowdoin, through the icebergs.

"The spirit of brotherly love exists nowhere else in this world as it exists among the Eskimo," Dr. MacMillan continued.

Four hundred thousand workers paraded at the opening of the International Trades Union Congress in Vienna.

"They have no bank accounts. They accumulate no property. What belongs to one belongs to another. There is the true co-operative spirit. Seal meat, whale meat, dog meat, these are living standards, not above those of the stone age. Truly, the Eskimo is living in a stone age, but whether he knows it or not he possesses great happiness, a happiness far above our own."

**Needs Are Simple**  
The explorer explains his own theory for their superior happiness, and it would seem that MacMillan attributes most of our troubles to our possessions; what we own we fight to get, and fight to protect.

"Their needs are simple so they get what they need. That is why they are happy. They know that if they have to fight for their food they will fight among themselves, and that every man among them who could corral all the seals, get a corner on the whales and thus seek to better himself through the suffering of others."

"The life of the Eskimo is sincere and simple. He has no intricate code of conventions, no pretenses, no ambitions that can be realized only through the beating down of his fellow men."

Dr. MacMillan asserts that one gets a different perspective on life's

values in the north. "Civilization," he says, "loses its importance." He describes the Eskimo race as one large and happy family, willing to work and satisfied with their lot. Of course, Dr. MacMillan was happy to put in again at Monhegan Island off the Maine coast, where he met his relatives and friends. Back from the hardships of the north he and his crew might have been elated with having returned safely to "civilization."

**Going Back!**  
But Dr. MacMillan is going back! And he says it would be easy to live always with the Eskimo. That is how sure he is that the man of the north lives happily. He is not alone on the Bowdoin in that confidence. Dr. Richard Goddard, magnesian, says it makes him blush to think that the white man calls himself civilized. "The more I saw of the Eskimo the less I thought of our ways of living," Dr. Goddard says. "They can't fight. I found out why they can't fight. They never need to. I never heard an argument between two Eskimo—and I never saw an Eskimo traffic jam; they don't hang each other. Which is the civilization?"

Hardships of the north? Yes, but the Bowdoin will point artward again next June, bound for "happy-land."

**HIGHT YIELDS HIS  
CLERICAL CREDENTIALS**  
(By The Associated Press.)

NASHVILLE, Ills., Sept. 25.—Reverend Lawrence M. Hight, of Indiana, held here on a charge of having married his wife so that he could marry Mrs. Elsie Sweetin, the death of whose husband he confessed having instigated tonight agreed to surrender his credentials as a minister of the Methodist Episcopal church. Promise to give up the document was made to a committee of ministers, representing the southern Illinois conference of the church in session at Carbondale.

During his confinement in the Mount Vernon jail the minister had declined to give up his credentials when requested to do so by the Mount Carmel district of the conference. The ministers, Rev. J. S. Cummings, representing the prosecution in the church investigation, and Rev. T. B. Sower, appointed as counsel for the prisoner, arrived here this afternoon. Reverend Hight spoke freely of his dilemma and repeatedly expressed regret to the visitors that he had committed the deed. He then signed a statement, containing the details of his confession.

**SENATOR GLASS TO  
HAVE OPPOSITION**

ROANOKE, Va., Sept. 25.—The Republican state committee in session at Hotel Roanoke this afternoon nominated W. N. Doak as Republican candidate for the United States Senate.

Mr. Doak who is a Roanoke man will oppose Senator Carter Glass of Lynchburg, incumbent and candidate to succeed himself.

**MERRIMAN LOSES IN  
FREE-FOR-ALL PACE**

COLUMBUS, O., Sept. 25.—Defeat of Merriman, strong first choice in the "free for all" pace featured today's grand circuit racing card, which brought out the best racing of the meeting. After winning the first heat of the fast pace in 2:01, Merriman broke going away in the second heat and finished fast Jimmy McKerron winning. In the third heat Merriman led for more than half the mile when he again broke and Jimmy McKerron took the heat and race.

**GOD HAS WONDERFULLY BLESSED ME WITH GIFT  
AND KNOWLEDGE TO COMPOUND MY REMEDIES**

I am extending this Gift to suffering humanity. We are now located in our New Quarters at 123 Main Street. R. E. Rodgers Old Stand and Saturday the 27th our Opening Day we are giving away sample bottles old Indian New Discovery

**Nanzetta Medicine Co.**

Office Hours Sunday from 9 to 12.

"Nanzetta's Prescription is the Greatest Medicine on Earth," says Mr. John R. Cook, of 512 Floyd Street. "I suffered with Rheumatism for 19 years, my joints and muscles would swell and pain me terribly. I tried everything I ever heard recommended to me for Rheumatism with no results. I saw by the Danville papers that others were getting results from Nanzetta's Remedies, so I decided to try it. After taking two and one-half bottles I have felt no rheumatism since. This has been nine months ago and I honestly believe I am entirely cured." (Signed.) "JOHN R. COOK."

## MAYOR HYLAN MISUNDERSTOOD

Mayor Hylan of New York a public official more or less frequently the center of political turmoil, has precipitated a revolt among the play-  
wrights by his latest move towards stage censorship. Censorship move-  
ments, no matter in what direction they lie are calculated these days to be disturbing elements. There is so much paternalism in national, state and local government that abridgment of freedom of expression, particularly in the arts is met with a solid front of those chiefly affected. In the present instance Mayor Hylan has suggested that three army officers of high rank in New York should act as arbiters and thus has rather naturally resulted in the heaping of ridicule on the executive for what has been characterized as poor material to determine just what is and what is not fit for dramatic presentation to the sophisticated people of New York ready for anything new and daring. In justice to the New York mayor it should be said that he has been widely misunderstood and he is not suggesting a military dictatorship for the New York stage generally. The fact of the matter is that while the executive believes that plays now running in that city should be subjected to a purification process he has in mind one play especially which relates solely to the army and it is this play "What Price Glory" which he wishes scrutinized by the army officials. The drama of the war was written by two members of the staff of a New York paper which has been unalterably opposed to the Hylan regime. This fact subjects the mayor to a cross fire of criticism—one from New York papers which may be counted as standing together in support of members of the craft and the other from the rank and file of play producers, playwrights and a large element of the theatre going public which wants to be its own judge and which is opposed to an official band of drama. The play which the mayor complains of deals with a company of Marines in France and has been considered by some as a reflection on the Marine corps. In this light the mayor's action in selecting military men to pass upon it may be explained and a distinction should be made between a general censorship and a tearing down of a production affecting the army.

Effective censorship will never be accomplished by repressive measures from the outside which irritate. It must come from the playwrights, the novelists and the scenario writers themselves.

## THE WAR IN CHINA

It is probably quite clear to the American people that the civil war in China is not shared in any sense by the Chinese people. The involve-  
ment of the Chinese people is limited to destruction of their crops by flood-  
ing, destruction of other property, and misappropriation of their mon-  
ey for army purposes. But they themselves are not in the war, have no stake in it and have no particular cause for rejoicing or weeping which-  
ever side wins.

It is a very long day since the Chi-  
nese people had anything to do with  
their so-called national affairs; and  
it is going to be a very long day be-  
fore they ever do control their China.

# TODAY'S TALK

By GEORGE MATTHEW ADAMS.

## Worlds

Every day there is something about this world that reverses itself to me. I thought I knew it yesterday—but today I learn that I do not.

I keep finding something different about it that makes me wonder whether it's the same world, after all, that I was born into.

On thinking the matter over I find that good reasoning tells me that the world stays the same day after day, except that it keeps moving and changing in its component parts.

It is my mind that changes—that makes the world seem a different world to me every once in a while.

And even though our bodies may grow old and gradually pace toward mystery an indeterminate, destined, our minds may measure the steps of age and then back again to youth.

So that shadows, sunsets, the thrill of winding roads, laughter, glad meetings, sad endings, rains, gardens full of flowers, beaten paths through pine scented forests, are merely pictures, setting, in-  
stances in a world that is own only so long as we take it as our own and love it.

Some of the worlds that people select wear them out. And then they see nothing to live for.

There is more than one world to live for—right here and now!

The world of Beauty is a very wonderful world. The world of love, kindness, unselfishness—how it grows and makes our soul rich. Then there is that world of action in which creations rise from the mind like springtime flowers in the woods.

You live through incentive. And if each day finds new incen-  
tives rising about you you have that much more freedom to be happy and to strive the more.

Try to make each day a new world in which you start all over again with new tools, new thought and new determination.

(Copyright, 1924.)

## THE REFEREE

By Albert Apple.

## "DEATH-RAY"

From San Francisco the inventor, Edwin R. Scott, claims he and other American scientific workers were ex-  
perimenting with "death-rays" be-  
fore the Englishman, Grindell-Mat-  
thews, was ever heard of. Invention  
rarely is the creation of any one man,  
but rather the outcome of genera-  
tions of effort, each of a long chain  
of inventors contributing his share to  
the final product.

We fail to see, though, how the  
invention of a murderous "death-  
ray" or any other such device of war-  
fare is much to boast of. The origi-  
nal inventor of the rifle was Satan  
in human form.

## RADIO-MOVIES

Hetty Green's son believes, from  
experiments he and his staff of engi-  
neers have made, that it will be pos-  
sible to broadcast radio-movies with-  
in 18 months. Not long to wait.

The next step will be some form  
of television, by which you'll look in  
a box or on a screen and see, by  
radio, the prizefight, battle, or  
presidential inauguration afar off.

Radio is solving considerable of the  
passenger transportation problem by  
making it unnecessary to travel to  
"be in on the entertainment."

## \$19,750

That's the price paid for one book  
—\$19,750! This is at a New York  
auction of old and rare volumes. The  
book in question was a copy of San-  
der's "Biography of the Signers of  
the Declaration of Independence."

Things are unbalanced when any  
man can pay for a lone book, tattered  
and old, more than the average  
family can save in a lifetime by  
working their fingers to the bone.

Even though spending the money  
does put it into circulation.

## 50

Sixty direct descendants attend the  
fifty-fifth wedding anniversary cele-  
bration of A. J. Wakefield and wife  
at Pana, Ill.

If every one reproduced as pro-  
lifically as the Wakefield family, and  
death did not intervene to make  
room for newcomers, a century or  
two would have this earth so tightly  
packed with folk that no one could  
lie down. Standing room only.

We have to get out to make room  
for newcomers. Nature has this for  
her scheme and she will never toler-  
ate its frustration by medical dis-  
coveries enabling people to live an  
average of 150 or more years. New  
ways of death will develop as old  
ones are conquered.

account for the "perennial popularity  
of "Acres of Diamonds." The Phila-  
delphia preacher-publisher is a man  
of genius and a rare master of as-  
semblies. From the dramatic story  
which introduces the lecture and  
gives it title until the closing para-  
graph with those luminous lines from  
Bosley, "He most lives who thinks  
most," there is no a dull moment.

Narrative poetry, description, humor,  
pathos, argument—this lecture em-  
braces them all. And the moral is  
obvious to wit: there are jewels at  
your feet, dig for them; success is at  
your right hand, grasp it.

# JUST FOLKS

By EDGAR A. GUEST.

## Body and Soul

Body and soul I fancied were talking  
As under the stars one clear night  
they were walking.

"I," said the body, "is what men ad-  
mire;

Strength for their backs is the thing  
they desire;

I win their battles, 'tis I who am  
foremost;

I am the one that all mortals admire  
most."

Body," said soul, "you are loved by  
all mortals."

You sit at their tables and pass  
through their portals;

You are the house and the visible  
being;

You are the thing which they think  
they are seeing.

But I am the spirit I make you or  
break you.

Lost is your pride if I ever forsake  
you."

"Body," said soul, "you are merely  
the shell.

I am the kernel and you are the  
shell.

As a house that is empty men pass by  
afraid;

So you would be were your eyes not  
kept hidden;

I am the essence of all men call you  
way.

The lamp at your window, the smile  
at your doorway.

'Tis true that men cherish you, true  
they admire you.

True that in broadcloth and silk they  
attire you.

But when age breaks you, you cannot  
be mended.

Back to the dust you return when  
life's end;

Body, though strong you are, brilliant  
and clever.

Death will destroy you, but I live  
forever."

## Poker Portraits

# With ROOSEVELT IN AFRICA

by W. Robert Foran  
© 1924 NEA Service, Inc.

Robert Foran, newspaper corre-  
spondent, accompanies the Theodore  
Roosevelt expedition into Africa in  
1909. They arrive at Nairobi, the  
"gateway of British East Africa,"  
to their first camp on the game-  
crowded Kapiti Plains. 288 miles  
from the coast. With Colonel Roose-  
velt are his son, Kermit, and three  
scientific members of his staff—  
Major Edgar A. Mearns, Edmund  
Heller and J. Allen Loring.

After a wonderfully successful shoot-  
ing trip in the Sotik country, the ex-  
pedition camps for more hunting at  
address at the Nairobi Institute at  
Nairobi, expressing his opinion of  
the country and its future prospects.

## NOW GO ON WITH THE STORY

"It seems to me that what is most  
needed is plenty of men who know  
the business of farming and have the  
flexibility of mind necessary to adapt  
themselves to a new country. The next need is for men  
who, although not farmers, will work  
until they become such."

"Finally, let the scientific farmer  
from the old country and the pioneer  
who has actually spent his life in the  
new country—especially the pioneer,  
British or Dutch, from South Africa  
—remember that each is a very short-  
sighted person if he cannot learn  
something from the other and cannot  
recognize the good in the other. The  
pioneer can profit immensely from  
the government farms, from the ex-  
perience of men who by the use of  
trained modern knowledge and mod-  
ern methods and instruments, make  
farming a paying success; and the  
scientific farmer from the Old World,  
with his highly specialized training,  
needs to remember that in the harsh  
conditions under which much of the  
life of a new country is led only the  
rugged men, who have actually  
grown up facing similar conditions,  
are fit to tame the country so that  
others can come in after them and  
develop it. Each of the two  
types has need of the other, and can  
profit greatly by working in hearty  
accord with one another."

"I say again, stand by each other.  
Remember that time spent in back-  
biting is waste of time. Work all  
of you heartily together so that you  
may soon do what you will ultimately  
do—turn this region into a great and  
prosperous White Man's country."

## Chapter I. Roosevelt's Return to Nairobi

On the morning of Wednesday, Au-  
gust 4, Colonel Roosevelt, Kermit,  
Davon and myself left Nairobi for  
Nairobi.

We traveled by special train, leav-  
ing at 9 o'clock in the morning, and  
were to stop en route at Lake Am-  
erican Mission. Colonel Roosevelt had  
promised to lay the foundation stone  
of the new European children's school  
at the Mission.

There was a tremendous crowd at  
the Nairobi railroad depot to see  
Colonel Roosevelt leave. On the plat-  
form a number of the leading officials  
and settlers pressed around Roose-  
velt and thanked him very sincerely  
for what he had said in his speech  
at the banquet on the previous eve-  
ning.

"It will make a most enormous dif-  
ference to the country's future," re-  
marked Lord Delamere to Roosevelt.  
"Even the most optimistic had not  
dared to hope for such a splendid vi-  
sion of the possibilities of this  
tropical country from your lips."

How highly his speech was prized  
can be proved by the fact that the

## East African Colonists' Association and the Nairobi Chamber of Commerce resolved, by an overwhelming majority, to print and distribute to members of the House of Commons and the House of Lords some 2000 copies of the speech. This is surely a true indication of the trend of local popular opinion in regard to the subject matter of Colonel Roosevelt's speech.

On the way up to Kijabe, the Roosevelts occupied their usual seat in front of the engine, while Davon and I occasionally rode beside them. The day was dull and threatening, but luckily the rain held off. How-  
ever, the fact that the sun was  
shrouded by heavy clouds made the  
train journey delightfully cool.

The Rev. Mr. Hulbert met Roose-  
velt on our arrival at Kijabe, and  
conducted him up the road from the  
railroad depot, through forest clad  
hills, to the site of the new Mission  
school. A large number of Ameri-  
can missionaries, their wives and  
children were already gathered  
around the site. The new building

## Scoop's Colyum

DRAKES BRANCH, September  
26.—(Grapevine Wireless).—A rainy  
day in the country so Ragson Tat-  
lers dashed off some  
blank verse:

Folks! At last I've  
bought a car, the make  
you already know, and  
I've not driven far,  
I tell you she sure can  
go. Tho' it's only second-  
handed, and I place it's  
tied with cord, I can  
travel to beat the band—  
in my "hand-me-down"  
Ford.

The radiator is busted,  
it leaks like everything.  
The mudguards are all  
rusted, there's a squeak in every  
spring. It isn't all shape just now,  
the seat is made of board, but when  
you take it all in all—it's a pretty  
good little Ford.

When you start, the engine's  
knocking, and when you're on the  
way the old board does some rock-  
ing, as from side to side she sways.  
The road feels very bumpy until a  
memory dim reminds you that the  
bumpy feeling—comes from riding on  
the rim.

The speedometer when working  
quivers like a reed, but we don't need  
it to reckon our terrific rate of speed,  
for we can tell by rattles, and by ev-  
ery jolt and jar just how fast we are  
going in this "bum-dinger" of a car.

The paint is peeling, and the top  
is on the blink, and it's not worth  
stealing, it's one swell car, I think.  
Tho' there're other things  
need fixin' on this noble "hunk-a-  
tin," you'll say the darn Ford's won-  
derful—when you see the shape its in.

Every small boy and his kid  
brother will beat it to the old fair  
grounds on Sunday to see the circus  
unloaded—and a lot of grownups will  
be there, too!

Oh, gosh, see that squash,  
And that pumpkin there;  
Apples red, hogs corn-fed,  
Wonders of the Fair!

Also see the Sheesley Shows and  
ride in the whirlingigs!

Making Hay.  
Several weeks ago President Cool-  
idge's father visited at the White  
House, and on his return home the  
Washington correspondents said he  
had to hurry back to get in the hay.  
This was the fifth crop raised on the  
old gentleman's Vermont farm, of  
which you must admit, is a pretty  
fair record. Then you remember it  
wasn't many weeks ago that Calvin  
himself hied himself to Plymouth,  
Vt., for a vacation and you will also  
remember that a story paper in the  
country carried dispatches and show-  
ed pictures of Calvin working in the  
hay field. Personally, we can't de-  
cide whether Coolidge, Sr., is the  
world's greatest hay farmer, or the  
world's slowest hay farmer.

Jack—"How do you find married  
life?"  
Bob—"H'm! Not much. Before  
marriage I talked and she listened.  
After marriage she talked and I lis-  
tened. Now we both talk and the  
neighbors listen."

Patience: "I don't look like my-  
self at all in this new hat."  
Patricia: "No, dear. I think  
you made a very wise selection."

So Changed.  
"Do you mean to say you flirted  
with your own wife all the evening  
at the masked ball and didn't know  
her?"  
"That's right, but she was so  
deuced agreeable—how was I to  
know her?"

The short skirt may come back but  
it can never again furnish the thrill it  
did when it made it's first appear-  
ance.

What makes a man think he is  
having a good time when he goes  
fishing? The fact that his wife isn't  
along, maybe.

We will stop war, snaps Albert  
Hall, only when we stop believing  
that we can lick the other fellow.

There are sermons in stones and a  
large stone in a ring. Bunks asserts,  
gives a girl the right to preach.

We Behave.  
John Wells never saw on Stokes  
street a young woman, running a  
coupe at the rate of 40 miles an hour  
with lighted cigarette in one hand  
and powdering some part of her face  
with the other hand and had her eyes  
focused on the vision mirror.

A muddy complexion shouldn't be  
condemned till you know the facts.  
Maybe, says Dr. Davis, she didn't get  
all the beauty clay washed off.

One prominent "wet" says the end  
of prohibition is

8 program.

## RADIO NOTES

### EGYPT FAR BEHIND

Radio enthusiasts in Egypt are having difficulty enticing the govern-  
ment into permitting them to broad-  
cast and use receivers. At present a  
few amateurs are able to receive  
broadcasts from London, Paris and  
Rome late at night.

### NEW WORLD LANGUAGE

A new international language has  
been recommended for consideration  
by the League of Nations. It is called  
"Parlamentario," and is said to be  
as simple as Esperanto.

### HOLLAND LIBERAL

Seven private and two state cor-  
porations broadcast in Holland to  
some 20,000 listeners. Holland has  
no license fee on receiving sets, as  
have other European countries.

### GERMANS TO RELAY

One of the broadcasting stations  
in Berlin is being converted into a  
relay station, in order to re-broad-  
cast the concerts from the British  
Broadcasting Company in London.

### NEW DUTCH TUBE

A Dutch firm has brought out a  
new four-electrode tube, the fourth  
element being merely a heating unit  
for the audio. The composition of  
this unit is kept secret.

### SHOW POOR PARTS

The Leipzig fair for radio fans  
has been a disappointment. It is re-  
ported. Prices are said to be high  
and the quality low.

### LOOP ON HOOP

A German radio engineer has de-  
signed a loop on a hoop, with the  
wires wound around projecting pegs  
alongside. Thus, the actual base of  
the loop, including the insulating  
material, is kept away from the an-  
tenna wire.

### BIG TAX THREAT

Holland's liberal policy of permitting  
listening in without charging a fee,  
a so-called other European countries  
has caused such a reduction in the amuse-  
ment tax that an agitation has been  
started to tax listeners \$4 annually.

### RADIO STORM WARNING

Approach of anything like a storm  
around New York is warning enough  
to the electric light company. A spe-  
cial radio receiver is set up for the  
reception of the static that accom-  
panies an approaching storm. The  
ringing of a bell is the warning.

### FINLAND PROGRESSING

Amateur interest in radio is pro-  
gressing to a stage at which that  
country may well compare with the  
rest of Europe. An organization like  
the American Radio Relay League is  
advancing the science there.

### RADIO AGAINST REBELS

The Brazilian government has  
been using radio to spread their  
propaganda against the rebel forces.  
The broadcasting stations warned the  
population of Sao Paulo to abandon  
the city, "leaving the rebels to their  
fate."

The Spanish government's decision  
to permit amateurs the use of  
wavelengths below 150 meters and  
power up to 100 watts has resulted  
in increased interest in this science  
there. At present there are about  
100 amateur transmitting stations in  
that country.

It cost almost half the price of an  
entire receiving set to mail it by  
airplane from Los Angeles to New  
York recently. It took only 53 cents  
for the set to cross the continent,  
but the postage cost \$69.45.

## Altavista

ALTAVISTA, Va., Sept. 25.—Miss  
Ruth Gilbert spent the weekend in  
Lynchburg with friends.

T. J. Bowman spent Sunday in  
Lynchburg.

W. B. Ellwood spent Monday in  
Bedford on business.

Misses Mary and Lena Hall, of  
Roanoke, spent the week-end with  
Misses Ruth and Annie Kate Morris  
here.

John Morgan and Duncan Owen  
motored to Blacksburg, Va., Sunday.

Mrs. H. M. Lane is spending this  
week in Roanoke.

Misses Margaret Vaughan and  
Laurie Smith left Tuesday for Farm-  
ville, Va., where they will re-enter  
school.

Miss Ruby Roark left Tuesday for  
Harrisonburg where she will re-enter  
school.

Grace Mabery, of New York,  
who has been visiting Mrs. J. A.  
Krauss, left Monday for her home.

Paul Farmer and Benny Arnold  
left Sunday for the University of Vir-  
ginia, where they will resume their  
studies.

Miss Susie McCutchen spent the  
week-end in Danville as the guest of  
Miss Mary Stuart Harrison.

Miss Frances Cundiff left Monday  
for Danville, where she re-entered  
Averett College.

Mr. and Mrs. T. V. Elson had as  
their guests Sunday Mr. and Mrs. Pat  
Martin, and Miss Eleanor Scott, of  
Lynchburg.

Miss Allie Rogers and Alma  
Thomas and Mr. D. D. Story, of Gib-  
sonville, N. C., spent the week-end  
here at the home of Mr. and Mrs. J.  
L. Scoggin.

Mr. and Mrs. J. W. Burke and  
daughter, Miss Ruth, and Mr. Luke  
Story, of Gibsonville, N. C., were vis-  
itors in town Friday. Miss Ruth was  
en route to enter Randolph Macon  
Woman's College at Lynchburg.

Miss Mabel Edmunds, of Frank-  
lin and Mrs. G. C. Noblett, of Mc-  
Levor, are visiting their sister, Mrs. P.  
L. Barrett.

## BOLIVAR WINS DERBY

SAN SEBASTIAN, Spain, Sept. 25.  
—The Spanish derby with a purse of  
25,000 pesetas was won today by  
Bolívar, owned by King Alfonso, who  
races as the Duke of Toledo.

## Children's Ward At Hilltop Given

Hilltop sanitarium, one of the  
greatest philanthropies this city has  
ever established, has just become the  
beneficiary of a gift which will bet-  
ter equip the institution to perform  
its beneficent functions. It is the gift  
to the sanitarium by the Danville Ki-  
wanis club of a four-room cottage  
situated at the south end of the  
handsome main building, which is to  
set apart as children's cottage, thus  
isolating the juveniles under treat-  
ment for the prevention or cure of  
tuberculosis and segregating them  
congenially in a well furnished, com-  
fortable and suitable building. The  
structure, which was remodeled and  
renovated and attractively furnished  
by the Kiwanis, has a play-room,  
large living room, dining room and  
other needed quarters and also a  
large sunny porch.

This children's cottage has accom-  
modations for six little patients.  
There are not but three at the sani-  
tarium. With the new facilities these  
will be rendered more comfortable  
and the older patients will not be  
liable to be disturbed, while the juve-  
niles will not be exposed to any de-  
pressing influence from the very ill  
patients.

Animals are sacrificed to an idol  
called "Nicholas on the Wheels" by  
a religious sect recently discovered  
in Russia.

"There  
is  
Hope"

"DON'T  
SUFFER!"

"There's a Munyon pill  
For Every Ill!"

Sold by all Druggists

## Children Cry for Fletcher's CASTORIA

MOTHER:—Fletcher's Castoria is  
a pleasant, harmless Substitute for  
Castor Oil, Paregoric, Teeth-  
ing Drops and Soothing  
Syrups, prepared for Infants  
and Children all ages.

To avoid imitations, always look for the signature of *Chas. H. Fletcher*  
Proven directions on each package. Physicians everywhere recommend it.

## In New York

NEW YORK, Sept. 26.—Mulberry  
street. Down on East Side. Where  
the kiddies use the sidewalk for a  
school slate. A medley of odors,  
rasping to alien olfactory organs.  
Tenement houses, with refuse recep-  
tacles on the front door stoop. There  
are no alleys.

Grimy-faced children, reared in de-  
fluence to all rules of sanitation, are  
healthy, happy and industrious.  
Street peddlers. Offering fruit of  
the season. And bananas are plenti-  
ful. Fish, displayed in running water.  
Spoked meat. A slow cat guard-  
ing them. Socks and cala pink stock-  
ings. A pair and a half for 45 cents.  
Eggs from 3 to 5 cents apiece. I  
wouldn't want scrambled eggs unless  
I had a dime.

Cigars made while you wait. Long  
and black and treacherous looking.  
Bedding airing on the fire escapes.  
Buxom women hanging out of third  
story windows, lazily gazing at the  
bedlam beneath. Contentment in  
equation.

Traffic policemen at every black.  
Poker faces and slant, peering eyes.  
They direct the constant ebb and flow  
of vehicles and pedestrians uncon-  
sciously. Their thoughts are on other  
things. Desperate criminals in this  
area.

Salesmanship at its height. One of  
three young men approach me.  
"Stranger down here, eh?" he queried.  
"Whenever you want any hot chili  
sauce," he continued. I took his card  
and promptly lost it. Wouldn't want  
to get caught with that in my wallet.

Storekeepers who stand on the  
sidewalk and taking pedestrians by  
the arm attempt to steer them into  
their stores for purchases. They are  
more frequently successful than you  
would suspect.

Monkeys have delicate appetites.  
Rocco, a pet store monkey, got hungry  
over the week-end and tearing him-  
self loose began to devour bananas.  
He had consumed \$125 worth at cur-  
rent retail prices before a small boy  
was loosed through a tram to  
chain Rocco to his perch.

—STEPHEN HANNAGAN.

## Is Your Skin Healthy?

A healthy skin is the surest  
safeguard against infec-  
tion. A pure, non-irritating  
soap is the only insurance  
for a healthy skin. Keep the

## RUFFIN.

RUFFIN, N. C., Sept. 24.—After a  
long dry spell the land is again wet,  
and much good will result to the be-  
lated turnip crop.

Little Miss Ruby Ashworth, who  
spent the summer in Norristown,  
Philadelphia and Trooper, Pa., visit-  
ing her father, brother and other re-  
latives, has returned to her home at  
Mayfield, N. C. She also visited in  
Atlantic City, N. J., Wilmington, Del.,  
Valley Forge, Pa., and other points  
of interest.

The tobacco crop was cut short by  
the long dry spell. Some farmers  
have finished curing the crop; others  
are nearly through, and some have  
more than half the crop yet to work.

The corn crop in this section is not  
very good.

Mr. and Mrs. A. A. Ashworth, who  
have been visiting relatives in North  
Carolina and Virginia, have returned  
to their home in Philadelphia.

Many friends of Mrs. Sam Aver-  
son will learn with pleasure that she  
is greatly improved, being able to  
sit up.

Little Gladys, daughter of Mr. and  
Mrs. Charlie Walker, who underwent  
a very serious operation last week at  
Edmunds hospital, is slowly improv-  
ing.

Photographs are supplied to  
schools in Leeds, England, so that  
the pupils may become acquainted  
with the best music.

WASHINGTON, Sept. 25.—Secre-  
tary Hughes has cancelled the en-  
gagement to speak in Marion Ohio,  
Saturday evening in his first speech  
of the presidential campaign, because  
of the death of Dr. Charles E. Saw-  
yer, who was President Harding's  
physician.

# EFFORTS MADE TO SAVE NEGRO FROM GALLOWS

Was Handcuffed Between Two Others, Who Slew Sheriff, After Arrest

By WALDO MOORE  
(Copyright, 1924, by The Bee)

SHREVEPORT, La., Sept. 25.—To what extent is a man guilty when two men to whom he is handcuffed commit murder, when evidence is lacking of intent on his part to participate in the crime?

That is a question puzzling criminologists and lawyers here in the case of Booker Boone, one of a trio of negroes under sentence to hang October 3rd for the murder of Sheriff E. M. Kentz, of Jackson Parish, La., last August 22. The sheriff was transferring the men to jail following their arrest on a charge of moonshining when the killing occurred. Boone was handcuffed to Freeman Coleman and Willie Washington in the center when his two companions leaped on the sheriff who was walking ahead, with a flashlight, picking away through a dense swamp. Coleman confessed that he snatched the officer's pistol and shot the sheriff. In the melee Boone was struck a flesh wound in the left arm. His cap was found under the officer's body substantiating his claim he was thrown under the officer as his companion leaped upon him.

A movement is under way to ask Governor Henry L. Uqua to commute Boone's sentence to life imprisonment. He is about 21 years old and apparently has the intelligence of a normal boy of ten. His testimony regarding the killing was couched in these words:

"While folks, it was done so quick, I didn't know what was happening."

After the killing, according to the testimony of Boone and Washington, the three men went to the home of Eli Driver, Coleman's brother-in-law, where they obtained a file and removed the handcuffs. They escaped and were apprehended after a search of several days, in which position Coleman numbering approximately six hundred from all sections of North Louisiana joined.

Boone was arrested about ten miles from the scene of the crime 24 hours after it occurred. He made no effort to resist. Washington was apprehended a day later and Coleman several days later. After this arrest the three were brought here for safe-keeping.

On September 5th a special session of district court was held at Jonesboro, the parish seat of Jackson. A jury of 12 men was empaneled from 17 veniremen examined and the trial was finished within less than four hours.

The day before the trial Coleman confessed the crime but under the Louisiana law a defendant charged with murder cannot plead guilty. As the men were penniless, Judge J. E. Reynolds appointed an attorney to represent them. The attorney did not challenge a single venireman and on cross-examination he did not ask any witnesses more than two questions. These related to the distance of the houses from the scene of the killing. He then put Washington and Boone on the stand and they gave their version of the affair. The argument of counsel lasted six minutes. The jury deliberated four minutes and brought in a verdict of guilty against all three men.

Under Louisiana law the court had hang. The negroes' lawyer waived no alternative but to sentence them to hang. The negroes' lawyer waived motion of appeal.

At the time of the trial there were few persons in North Louisiana who did not want all three men hanged, but within the last few days sentiment has changed regarding Boone.

## DUTCH WINDMILLS SUPERSEDED

AMSTERDAM, Sept. 25.—The old windmills of Holland, pictured so many Dutch scenes, are slowly but surely going down before modern machinery. They did their work well, and were picturesque, but the electric pump is even more efficient, and its advent is making the windmill a thing of the past.

## ECZEMA

You will be compelled to admit that the results of S.S.S. are really amazing!

MANY people imagine that eczema or tetter needs only some external application on the skin in order to get relief. This is a mistake. The attention of the sufferer must be directed to the intense burning and itching which accompanies this disease. Try as they may—permanent relief will never be theirs until the disease laden blood is thoroughly cleansed.

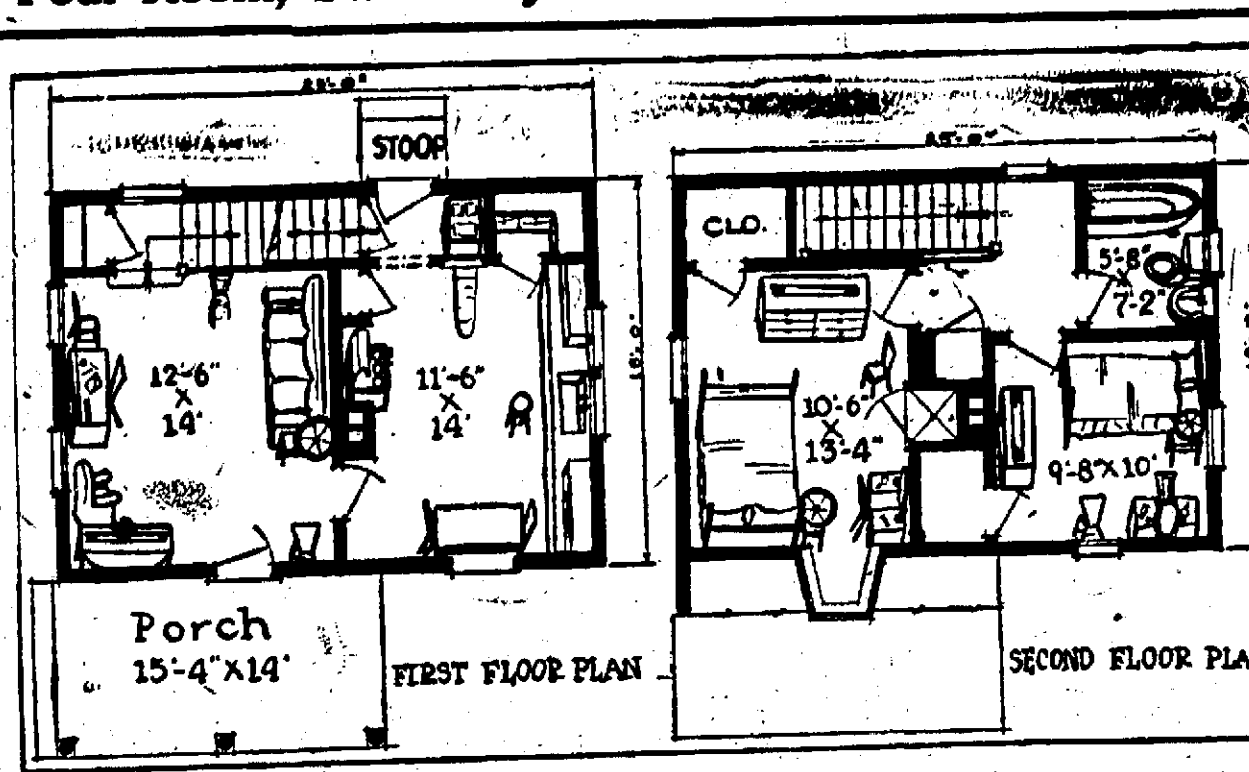

We know there is one thing that stops eczema and that is more red-blood-cells! S.S.S. builds them by the million! You can increase your red-blood-cells to the point where it is practically impossible for eczema to exist. We know that as blood-cells increase in number, blood impurities vanish! We also know that night follows day. Both are facts! But have you, eczema sufferers, ever actually taken advantage of this wonderful fact? Thousands just like you have never thought about it. Skin eruptions, eczema, with all its fiery, skin digging torture, and its soul-tearing, unresolvable itching, pimples, blackheads and boils they all pack up and go when the tide of blood-cells begins to roll in! Blood-cells are the fighting giants of Nature! S.S.S. builds them by the million! It has been doing it since 1826.

S.S.S. is one of the greatest blood-cell builders, blood-cleansers and body strengtheners known to us mortals! When you put these facts together, then to continue to have eczema and skin eruptions looks more like a sin than a disease. S.S.S. contains only vegetable medicinal ingredients. Because S.S.S. does build red-blood-cells, it cures eczema, clears the skin, builds firm flesh, fills out hollow cheeks, and gives you that more up and going appearance.

S.S.S. is sold at all good drug stores in two sizes. The larger size is more economical.

**S.S.S. The World's Best Blood-Medicine**

## Four-Room, Two-Story Home Without Dining-Room

FLOOR PLANS AND FRONT VIEW OF SMALL HOME

Young couples starting out, who would rather have a tiny home all their own than the finest apartment to rent, will find much to interest them in this cottage.

It is sensible and economical, for it is inexpensive to build and to maintain. Yet is not ugly nor poorly built. A firm of New York architects who are nationally known designed this house as an example of good architecture in the smallest residence.

At the outset, the young couple—or the older one, for that matter—who choose this house acknowledge that some sacrifices must necessarily be made. They do not demand a den and a sun-parlor, a fireplace and a billiard room, as many people do who nevertheless wish to build at low cost. Also, they realize that a two-story house will be cheaper and just as satisfactory, after all, as a bungalow.

They cling to their desire to have a place to put a guest or a child, and in order to secure an extra bedroom they are willing to do without the usual dining-room, which seems in use only a couple of hours a day, while its maintenance goes on for the entire 24.

We have, then, a four-room house, two stories, in which the living-room and kitchen share honors downstairs, and the upstairs has two good bedrooms with extra large closets, a tray case, linen case and good bathroom. The kitchen is large enough for dining on ordinary occasions, and when there are guests the living-room is to be used.

## Ghost of Slain Peddler Slapped Him, Farmer Says

UTICA, N. Y., Sept. 26.—The Ghost of Spook's Hollow, quiet for a decade, today is once more wandering the sharp and wooded dip in the old Bell Hill road, according to John Mansuki, Bell Hill farmer.

Mansuki solemnly vows that he saw the ghost of the departed peddler, slain there fifty years ago. He was slowly driving up the hill on a windy, rainy night with occasional gusts of twilight filtering through the ragged cloud-blanket which obscured the sky, when he had his ghostly experience.

At Spook's Hollow the road dips into a small ravine, crossed it directly and passes up a shaded stretch, where the trees and bushes crowd to the roadway.

Mansuki reported that as he reached the bottom of the ravine he was assailed by sounds that no wind could produce. Whipping up his jaded horse, he made haste to get along the shaded stretch of road ahead. The sounds were intermittent and resembled a ghostly wail.

At the worst of the outbursts, Mansuki says, a cold, wet hand reached into the buggy and clapped him across the face. And as he cried out and started his horse into a gallop, he saw something white moving for a moment among the bushes. The horse, too, seemed frightened, for it continued its exertions until it fell to fall it trembled the rest of the way home, its driver in a state of collapse.

In the years since the murder of the peddler more than one wayfarer has told of how he was startled by a creaking branch and a sight of flash of white.

The peddler remains anonymous. Some fifty years ago he was waylaid in the bottom of the ravine one rainy night and killed. His pack was rifled and his little store of money taken. The body was found next day.

Evidently the peddler had been making his way downhill after a prosperous day, his head bent, and plodding along at his usual labored gait, under the burden of his pack. The thief lay in ambush and his movements deadened by the wind and rain, crept up behind and slew the peddler at a blow.

The slayer escaped, and the vengeful spirit, so the country folk say, still stalks through the forest fastness.

## GRAVE OF NOTED INDIAN CHIEF IS BELIEVED FOUND

POCATELLO, Idaho, Sept. 25.—An ancient Indian grave believed to hold the remains of Chief Nam-puh, the Plute Indian leader after whom the city of Nampa, Idaho, was named, has been found by R. W. Limbert, whose explorations in the country now known as the Graters of the Moon national monument contributed greatly to national recognition of that territory.

While hunting in the desert close to the Nevada line recently Mr. Limbert said he found a flat rock upon which there was carved an arrow. Following the general direction of the arrow he found other rocks with arrow rock carvings. The end of the line of arrow rocks was a huge mound of stones with a flat one resting horizontally on top.

The flat rock was engraved crudely with the figure of an Indian with abnormally large feet and hands; around the figure was a circle, the death sign of the Plutes.

The dead chief is reputed to have had enormously large feet and hands and it is a tradition that one of his feet was six inches wide and eighteen inches long. The attempt of the carver to show the large hands and feet leads Limbert to believe that it is the grave of Chief Nam-puh.

## CO-OPS GETTING INTO FULL SWING

RICHMOND, Sept. 25.—With the opening of thirty more warehouses on October 1 by the Tobacco Growers Cooperative Association and western North Carolina the third season of cooperative marketing for Virginia and North Carolina—bright, tobacco farmers will be in full swing, according to an announcement issued by the association.

In announcing the opening dates the association calls attention to the fact that hundreds of tobacco farmers have been denied permission to deliver their tobacco to the organization because the directors have ruled that no 1924 tobacco have been received at the headquarters of the association. Payments made last week and already scheduled to be made before November 15, amounting to more than a half million dollars, will bring the cash receipts of every member in the association it is declared, to three-fourths or more of the bankers' valuation on his last season's deliveries.

## SWEETIN WOMAN'S MIND MAY BE IMPAIRED NOW

(By The Associated Press)

SALEM, Ill., Sept. 25.—Continued refusal to partake of food, coupled with the strenuous events of the last three days and the loss of sleep, tonight had cast Mrs. Elsie Sweetin, held here on a charge of having poisoned her husband, Wilford Sweetin, into a state of semi-consciousness. Indications that the woman's mind has become impaired since confession that she poisoned her husband at the instigation of the Rev. Lawrence M. Hight, who in turn poisoned his wife so that they could be married, have become noticeable, officials said.

In addition to repentance felt for her act, as Mrs. Sweetin has readily admitted, the worry over the future of her three children has been her chief concern.

A glass of milk served last night constituted the only nourishment she has had since she arrived here.

## CLASSIC PLAYS OF THE GRIDIRON

By OSSIE SOLEM  
Football Coach, Drake University,  
Des Moines, Iowa.

Two weeks before our big Thanksgiving Day game with Grinnell in 1921, we had lost both of our halfbacks. One with an injured ankle, the other with a dislocated shoulder. And at the end of the first half Grinnell had us beaten 10 to 0.

During the third quarter our situation got no better, so it was time for a bold stroke. Time was called and out onto the field trotted "Bill" Boelter, the halfback with the dislocated shoulder.

Give me a sound-bodied substitute in preference to a crippled star. I seem to hear you saying. And ordinarily I'd vote that way myself. But let's follow developments in this instance.

Boelter's entry into the game was automatically the signal for forward passing fireworks to start. In the next five minutes we flung four passes, and Boelter carried three of them to touchdowns, with runs ranging from 20 to 40 yards after receiving the ball.

Drake 21—Grinnell 10. That's the only answer to those who questioned the wisdom of sending Boelter into the game. Some players seem to have in addition to marvelous natural ability, a sort of magic spark that puts new life into a laboring machine. Such a one was "Bill" Boelter. Sending him into the game was more than the injection of a lump arm and heroic figure. It was breathing new spirit into the whole Drake team.

Never have I seen as spectacular pinch-hitting as Boelter's handling of passes and running in that rapid fire overhead rally.

But his performance that day was only typical of his exploits throughout a three-year career ending last fall, in which his feats were recognized by numerous critics in their selection of Missouri Valley and All Western mythical teams.

## Local High Plays First Game Today

The Danville High school football team will play the first game of the season here this afternoon when they tackle the Chatham High at Stonevale Jackson park, the game to begin at 4 o'clock. No set line-up has been picked to oppose the visitors, about thirty men making up the squad of tryouts, which include new men and left overs from last year. The coaches, however, will be Kock and Wilson, the same as last year. It was stated last night.

The locals have been putting in full time in practicing and believe they have the material for a strong eleven. Although Chatham got beat by Martinsville Wednesday by the score of 34 to 0, that aggregation is a strong one and a lively scrap is expected this afternoon.

It is hoped that a good crowd will turn out for their first game this afternoon. The team is confident and rivalry between the men seeking permanent places, has resulted in a hard fighting aggregation.

Bottles containing specimens of 2-800 different sands have been collected by a scientific institute in Chicago.

## LEFTY NEHF OUTPITCHES HIS PORTSIDE RIVAL AND N. Y. INCREASES ITS LEAD

(By The Associated Press.)

NEW YORK, Sept. 25.—The New York Giants vanquished Pittsburgh for the third successive time today and advanced another step toward their fourth straight pennant on the weak of Pirate hopes. A crowd of 25,000 saw the fighting Giant clan batter out a five to four victory and crush beyond recall the last lingering chance of Pittsburgh in the National League race.

The Pirates, however, went down with colors flying in the ninth inning when, with two out, they rallied and pulled up to within a run of the champions on Carey's home run drive, which scored Schmidt and Moore ahead of him. But Art Nehf, veteran Giant southpaw, who had outpitched his portside rival, Wilbur Cooper, and put his team in the lead with a homer in the fifth, checked the belated rally abruptly by striking out "Kiki" Cuyler, brilliant Pirate outfielder, for the second time.

By making a clean sweep of the series the Giants increasing their margin over the Pirates to four and a half games. Since the champions have only three games more to play, they cannot be overhauled by Pittsburgh, even if the latter won all its remaining five games.

Brooklyn now is the only obstacle in the path of McGraw's fight to

hang up a record pennant string for modern baseball history. The Robins were idle today, so the champions stretched their margin over Robinson's crew to one and a half games. By winning two out of the remaining three with Philadelphia, McGraw can clinch the flag, even if Brooklyn wins its remaining two with Boston.

Score by innings: R H E  
Pittsburgh . . . 000 100 003—3 1  
New York . . . 000 110 305—5 9 2  
Cooper and Schmidt; Nehf and Gowdy.

**PHILLIES LICK CARDINALS**  
PHILADELPHIA, Sept. 25.—The Phillies closed their home season today by defeating the Cardinals 6 to 3. The visitors knocked Oeschger out of the box in the first inning but were helpless against Betts, who held them to four hits and twice fanned the mighty Hornsby. Shields held the Phillies in check until the eighth inning when Leach started a rally by lifting a homer out of the park. Two more runs crossed the plate before relief pitchers Stuart and Fowler could retire the side.

Score by innings: R H E  
St. Louis . . . 000 000 000—3 8 1  
Philadelphia . . . 100 013 035—5 8 0  
Shields, Stuart, Fowler and Gonzales; Oeschger, Betts and Henline.

Rain measuring four and a half inches fell during a thunderstorm which broke over Kensington, London, in 1917, while other parts of the English metropolis were not affected.

## The Sportsman

By WALTER CAMP

(Copyright, 1924, by The Bee)

NEW YORK, Sept. 26.—Much interest is expressed out in the middle west as to how Iowa is going to get along on the gridiron after her change and under the coaching of Ingwersen.

Since Iowa came east under Howard Jones and stood up the Yale team under brother Tad, and came back with a victory, things have not gone so well. And one of the facts that Illinois and Michigan both made such good records last year and carry over a strong line of prospects, that stage has about as good a veteran line as he has had for long time; that Minnesota, in spite of the loss of Martineau, has great confidence in Spaulding's development of teams, and that Ohio State after two bad seasons is making unusual efforts to come back, Iowa realizes that she faces a mighty stiff proposition and that ingersen will have his hands full.

Outside the conference teams, Notre Dame and Marquette will also have to be reckoned with and Marquette is particularly dangerous as they have planned for their meeting with the Navy early in October and mean to make that a memorable occasion. Nebraska, the "giant killer," also should be reckoned with, although the strain and the price of their victory was, at least temporarily, the health of the coach.

"Red" Grange, of Illinois, the scorer of 12 touchdowns and the gainer of 1,260 yards in 235 minutes, is the man that all the opponents of Illinois are watching this year. Zuppke last year used him when he had to and he always made good. If Zuppke can get a mate for him this year Illinois will go far. And the story goes that they really have. But the opponents know a good deal more about "Red" Grange than they did previously and he is going to be very closely watched.

## WHERE THEY PLAY TODAY

**AMERICAN LEAGUE**  
Washington at Boston.  
New York at Philadelphia.  
Detroit at Chicago.

**NATIONAL LEAGUE**  
No games scheduled for today.

Kissing babies is a dangerous practice, says a noted medical expert, because infection from bad teeth or throat troubles, which would be harmless to adults, might prove injurious to infants.

## Schalk Picks American

Six Big Reasons Why Washington Has Real Chance to Win World Series.

BY RAY SCHALK

Famous Catcher, Chicago White Sox  
I WASHINGTON wins the American League pennant there are six reasons why I feel it will defeat any National League team it is called upon to meet.

1. Walter Johnson, premier twirler of the majors, is Washington's pitching ace.

2. In Muddy Ruel the Washington club has the best pitcher in baseball. He's an inspiration to his club.

3. Washington boasts the strongest infield in the majors. Pittsburgh alone compares with it.

4. Stanley Harris is a brilliant, brainy manager, who sets a fine example for his players in all things. His club is with him.

5. A good pitching staff, not great, but good. A staff that enables the manager to offer the opposition a varied assortment of stuff.

6. A winning spirit that has overcome many of the handicaps that has beset the club throughout the season. Washington fights, never quits.

Washington is Tight Club.

There are the six reasons why I believe Washington will win the world series if the club wins the right to play in it. It is a tight ball club, has the best defense in the American League. It doesn't need many runs to win. In a great many games this year its marvelous defense has made merely good pitching look great.

It is admitted that Washington has a defense and pitching. Many of the experts appear to be skeptical about its batting power.

True, Washington hasn't the punch of New York, Detroit, Cleveland or

St. Louis, but it is far from weak at the bat. It is a club if pitched to carefully and properly can be held in check, but woe to any pitcher who makes a mistake and gets the ball in the wrong spot.

**Nationals Can Hit.**  
Goslin, Rice, Judge and Ruel must be considered dangerous at all times. Managerial duties have not handicapped the play of Harris in the least. On the contrary, he is playing the greatest game of his career. Peckinpaugh and Bluege can be listed in the same class as Manager Harris.

1. I do not quite agree with the experts in the opinion that Washington lacks a punch. The club has much power. Like all batters, a number of Washington players have a certain weakness. To keep down the punch, the opposing pitcher must have control and take advantage of it by pitching to the weakness of each player.

If you pitch wrong to the Washington club it has the power to show you as strong an attack as the Yankees. A great many of the team "murder" certain kinds of pitching. It's good night to the twirler who fails to keep the ball out of their "groove."

**Winning Spirit Real Asset.**  
I agree with Manager Harris that the spirit of the club has been its greatest asset in waging a pennant battle. If the club goes over, I look for that spirit to carry it through the world series.

Frankly I don't consider Washington a pennant contender at the opening of the season. Fourth place looked about right for the club, no better. Yet here it is fighting for the pennant, a contender all season. Always a fighter himself, Manager Harris has inspired his team with the winning spirit. To him must go much of the credit for the club's great showing. A Washington victory in the American League would be one of the most popular wins ever scored.

The great popularity of Walter Johnson, wonder pitcher and real gentleman, is back of that feeling.

## YESTERDAY'S RESULTS

**AMERICAN LEAGUE**  
No games scheduled yesterday.

**NATIONAL LEAGUE**  
New York 5; Pittsburgh 4.  
Philadelphia 5; St. Louis 3.  
No others scheduled.

**AMERICAN ASSOCIATION**  
Indianapolis 2; St. Paul 2.  
Columbus 4; Kansas City 7.  
Louisville 12; Minneapolis 13.  
Toledo 5; Milwaukee 6.

**NUMEROUS CHANGES IN COACHING RANKS**

(By BILLY EVANS)

Coaching a football team at a major college is no longer a secure.

Like the big league manager in baseball, the college football coach must deliver, if he is to retain prestige and position.

In the old days, if the coach succeeded in turning out a team that beat its hated rival, the season was considered to have been a success. It's different now.

The huge stadiums a number of colleges have built in recent years have considerably changed the status of the coach. There is a big overhead connected with these stadiums. In order to meet it and incidentally make enough money to tide over sports that do not draw like football, the coach must annually turn out a winner.

The coach who has the happy faculty of some way developing a winner in football is always in demand. When the gridiron prestige of a college begins to wane, the athletic board immediately starts to flirt with the successful mentor.

**Many New Methods**  
This season will see new methods installed in different sections of the country. A number of the leading colleges have changed their coaching systems.

In an effort to cut a swath in southern football circles, Trinity has Howard Jones as coach. At Iowa Jones met with great success, won several championships and defeated Yale, his alma mater, in an intercollegiate clash. Trinity looks for Jones to put it on the football map. He should.

On the Pacific coast, Stanford, tired of having California hog the spotlight, has Glenn Warner, who made history at University of Pittsburgh as coach. For several years Warner has been having his system established at Stanford by certain assistants. This year he takes charge in person.

Warner hopes to make things interesting for Coach Andy Smith of California. It is a well known fact that Warner usually makes good on anything he sets out to do in football.

**Moran at Bucknell**  
Bucknell will be guided by Charley Moran, who made the football world take notice with his great Little Central College eleven. Bucknell dedicates a new stadium this year and wants a winner, must have it.

Some of the "Big Ten" coaches are wondering if Illinois will miss Burt Ingwersen, who succeeded Howard Jones at Iowa. For years Ingwersen has been a trusted lieutenant of Zuppke and greatly aided in the development of championship teams at Illinois.

Joe Morrow, former Washington and Jefferson star, will again be back at his old school after several years' absence, succeeding Helmsman who goes to Rice Institute in Texas.

Dr. J. B. Sutherland, who played under Glenn Warner at Pittsburgh, and who for several years has coached at Lafayette, will be in charge at Pittsburgh. Sutherland has had a very successful career as coach.

These changes in the coaching system in the various sections of the country will make for much renewed interest in the game.

**MEMPHIS DEFEATS FORT WORTH**  
MEMPHIS, Tenn., Sept. 25.—Memphis Southern, pennant winners, defeated Fort Worth, Texas League champions, 2 to 1 today in the first Dixie series game played to a decision. Bunched hits in the eighth inning, Fredro's double followed by Smith's single, gave Memphis the deciding run. Merz held Fort Worth to five hits. Head, pitching for Fort Worth, allowed nine hits.

**The NUT CRACKER**  
BY JOE WILLIAMS

Congresswoman from California will introduce resolution making June Johnson's birthday a legal holiday. . . . Washington citizens want capitol monument and congressional library thrown in on the deal.

Cornish fishermen, says a news note, play marbles during their spare time. This isn't as bad as it might be. Suppose they had succumbed to the horseshoe pitching habit!

Walker Hagen won another golf title, which is about as sensational a bit of news as an announcement that the Prince of Wales went to another dance.

Frisch and Groh are out for the season, and the only silver lining to this Giant cloud is that it gives McGraw a convenient, ready-made alibi if he loses the pennant.

The Englishman who came home drunk, carrying a dozen new hats for his wife, is being looked over by Premier MacDonald's scouts as a possible diplomatic Babe Ruth.

Despite the fact that this is an advertising age, we seem to have forgotten where the next roller-skating championship will be held.

Football note says Zuppke's offense is to be built around Red Grange, which is about as startling as Miller Huggins deciding to give Babe Ruth a chance in right field.

Surgeons took skin from a man's arm to make him a new pair of eyes. . . . We expect a lot of baseball players will use this item in their conversations with the umpires.

Berlinbach is to be given a chance at Mike McGigue. . . . This act ought to be called "passing the cheese to Paul."

The annual Sudan grass crop in the United States is 3,000,000,000—originating from eight ounces of seed sent to the United States in 1909.

### EXPLAINS CONNECTION OF SOUL AND BODY

WASHINGTON, Sept. 25.—Extensive plans are being made for the reunion of the first division in Washington October 2 to 5.

The program as announced today starts with a smoker given by the veterans of foreign wars on the night of Thursday, October 2. On Friday, October 3, the Navy Department will entertain all veterans on a trip to Mount Vernon. There also will be other sight seeing trips and in the evening regimental reunions.

On Saturday, October 4, a parade will take place in the morning followed by the unveiling of the monument to the First Division near the State War and Navy Building. The principal address at the unveiling exercises will be by President Coolidge. The monument will be unveiled by Private Dan R. Edwards, holder of the Distinguished Service Cross and the Medal of Honor. On the evening of October 4 the society of the First Division A. E. F. will hold a meeting.

On Sunday, October 5, there will be a pilgrimage to the tomb of the Unknown Soldier with exercises at the tomb.

The parade on October will be regular troops of the active First Division, regular troops of the District of Columbia, veterans of the First Division veteran societies, welfare societies and disabled veterans in the vicinity of Washington.

### HOT LUNCHES FOR CHILDREN PLANNED

RICHMOND, Sept. 25.—Hot supplemental lunches for Henrico county school children were discussed at a council meeting recently held at the Richmond Y. W. C. A. The necessity of something hot for the children to eat at noon-time was said to be apparent especially in counties having large consolidated schools and truck routes.

Mrs. S. E. McCluer, public health nurse, reported that a large number of children were found to be under weight. It was decided at this meeting to ask the demonstration clubs, community leagues, women's clubs and other civic organizations to cooperate in making hot lunches in the schools a county-wide activity.

Those attending this meeting were Mrs. M. C. Patterson, president Henrico Welfare committee; J. A. Loving, president Henrico County Council of Cooperation; Mrs. W. W. Snyder; Mrs. P. L. Moore; Mrs. S. E. McCluer, public health nurse; Virginia Swink, Henrico home demonstration agent, and Miss Sylvia Slocum, home demonstration agent for eastern Virginia.

### ADOPTS SECRETARY AS HIS DAUGHTER

NEW YORK, Sept. 25.—Believing an efficient secretary would make a good daughter, Irving Swan-Brown, 54, wealthy operator in real estate here and in England, today secured permission from Surrogate O'Brien in Manhattan, to adopt Miss Nadia Germaine Sakakini, 32, of London. Swan-Brown stated in his petition that he was a Princeton University alumnus and was anxious to provide for his former employee. The realtor's wife died several days ago.

Voicing her approval of the adoption, his daughter, Mrs. Frances Eldredge, wife of a Wall Street broker, says in her affidavit: "I have been advised and understand the effect this adoption will have on my interest in my father's estate should he die without leaving a will and I hereby approve and consent to it. I have known Nadia since 1920."

Miss Sakakini, at present, is a guest at the Eldredge summer home at East Hampton, L. I. She will return to England next month.

## \$500,000 IN BOGUS BONDS ARE CIRCULATED

### Scrutiny of All Securities Made Following Discovery

(By The Associated Press.) NEW YORK, Sept. 26.—A careful scrutiny of securities was made by banks and brokers today following the disclosure yesterday that bogus bonds issued in the name of a company which does not exist had been put up as collateral for loans. The amount of the bonds possibly may total \$500,000, according to authorities investigating the fraud. This sum was based upon knowledge the bonds, printed upon a stock form which may be purchased by lithographers without restriction, may all have been of the \$1,000 denomination with 500 of them issued. These brought to light have been for that amount and the lithographer from whom they were purchased said sales of the forms were between 250 and 500.

One broker reported a loss of \$5,000 from purchase of five of the pieces of paper at face value while another had accepted four of them as security for a loan of \$3,500.

The bonds bore the name of the "Steel and Tube Company of (North) America," being similar in appearance to those of the Steel and Tube Company of America, which was merged with the Youngstown Sheet and Tube Company 14 months ago.

Three persons were questioned in connection with the fraud, all of them members of the Le Roy Corporation, which was restrained by a supreme court injunction last July from marketing its own securities. Alden Miller, one of those questioned, sold the bonds bought by a brokerage house. He said they had been taken from two men as security for a note.

### NEW YORK COTTON.

(By The Associated Press.)

NEW YORK, Sept. 25.—Continued buying featured the cotton market early today.

The opening was firm at an advance of 22 to 48 points in response to higher Liverpool cables and reports of further easing of rains. Some southern hedge selling and rather heavy realizing was met on the advance but it was taken on slight setbacks. The market was very firm at the end of the first hour with active months about 55 to 60 points net higher.

October sold up to 25.00 and December to 24.18 making advances of about 2 3/4 to 3 cents per pound from the recent low levels. Buying was encouraged by reports of increased sales of cloth in the Fall River market and more bullish crop advice from Georgia and the Carolinas.

October ..... 25.00  
December ..... 24.18  
January ..... 24.18  
March ..... 24.18  
May ..... 24.45

### NEW ORLEANS COTTON.

(By The Associated Press.)

NEW ORLEANS, Sept. 26.—The cotton market experienced an excited opening with very heavy trading on the call. Although Liverpool was lower than due by the time the call terminated, prices were 30 to 38 points net higher. October traded up to 23.90, December to 24.00 and January to 24.02 or 50 points above the closing prices of yesterday.

The price was stimulated by large sales in Fall River for the week, 75,000 pieces against only 15,000 last week and reports of heavy rains overnight and this morning in the eastern belt. Toward the end of the first half hour prices eased off about 20 points on realizing.

October ..... 23.47  
December ..... 23.54  
January ..... 23.82  
March ..... 23.13  
May ..... 24.20

**MORNING SUGAR LETTER**  
NEW YORK, Sept. 26.—The advance by one refiner late yesterday was probably due larger to the differential between raw and refined rather than to improved demand. Additional offerings of Porto Ricans came on the market following sales of almost 100,000 bags at 4 1/4. We see nothing to warrant higher prices for the December, although we believe the distant positions at an attractive level.

### Textile Company Omits Dividends

(By The Associated Press.) NEW YORK, Sept. 26.—The directors of the Standard Textile Products company have omitted dividend payments on both classes of preferred stock, which have been paid regularly at the rate of seven per cent annually since 1919. The company is one of the leading manufacturers of oil cloth in the country.

Net earnings of the company were sufficient to cover current dividend requirements on the preferred shares. Alvin Hunter, president, explained, but because of unusual conditions in the textile industry the directors deemed it wise to defer payments. The Standard Textile Products company owns and operates manufacturing plants in Youngstown, Ohio, Rock Island, Ill., Athens, N. J., and Montrose, N. Y., in addition to controlling mills at Mobile, Ala., Selma, N. C., Columbus, Ga., and McComb, Miss.

### PLANT CHANGES HANDS

(By The Associated Press.) NEW YORK, Sept. 26.—Control of the Vivandou Inc. manufacturers of perfumes and toilet articles, has been acquired by Park and Tilford. David A. Schulte, president of the latter company, announced today. The transaction, involving the purchase of stock owned by Victor Vivandou founder of the company, enabled no new financing as payment was made out of the earned surplus of Park and Tilford. Mr. Schulte said he would soon make an announcement concerning the future policy of Vivandou.

**WOLVES AT CHURCH**  
ROME, Sept. 26.—Morning services continued far into the night in the church of San Vito on the slopes of Vesuvius when a pack of howling wolves surrounded the church at San Vito. Finally, noticing the plight of the congregation drove the wolves away with guns. The presence of these beasts in Vesuvius is rare.

Scientists have found birds with ivory bills in Florida. Which is nothing much. We know some birds with ivory heads.

## TICKER TALK

Thomson & McKinnon

## STOCK REPORT

Thomson & McKinnon.

NEW YORK, Sept. 26.—Cogn Products directors meet at 2 p. m. for dividend action.

Western Maryland August surplus after tax and charges \$4,590 against \$145,229 in August 1923.

Wilson & Company will pay October 1st interest on its \$2,550,000 first sinking fund gold sixes series A.

George Whitney of J. P. Morgan & Company and Charles T. Fisher and Lawrence P. Fisher of Fisher Body Corporation elected General Motors directors.

Interest of the late Arthur E. Newbold in J. P. Morgan & Company and Ores & Company appraised at \$1,486,794.

Arbuckle Brothers advanced refined sugar 10 points to 7.40 cents.

New York Central including Ohio Central August net \$5,548,777 against \$7,262,002 in August 1923. Eight months \$41,523,800 against \$54,714,914.

Rat of New York Reserve Bank 80.1 week ago 76.9, year ago 83.7. Federal Reserve System 80.4 week ago 78.5, year ago 76.4.

President Coolidge in Philadelphia speech opposes government ownership of railroads.

Norfolk and Southern August net \$109,829 against \$102,150 in 1923. Eight months \$935,324 against \$770,750.

Bankers purchase \$15,750,000 Pennsylvania Railroad general equipment trust 4 1/2 per cent. certificates.

Texas Company will purchase at posted price all oil held by it in storage for producers in North and Central Texas.

Estimated surplus bonds totaling \$500,000 and closely resembling those of Steel and Tube Company of America have been put in circulation.

Philadelphia & Reading Coal & Iron Corporation directors at regular monthly meeting did not take action on dividend.

Average twenty industrials \$104.13, off .55, twenty rails \$90.51, off .20; forty bonds \$90.84, up .07.

### NEW YORK STOCKS

(By The Associated Press.)

NEW YORK, Sept. 26.—Stock prices displayed a firm undertone at the opening of today's market with buying orders well distributed over the general list. Pullman, International Telephone and American Chicle preferred each opened a point higher, the last named and public security of New Jersey establishing new 1924 high prices. Most of the standard industrials and rails improved fractionally.

Railroad shares moved up briskly in reflection of the record breaking carloadings and the sharp curtailment of expenses shown in the August earnings statements now being published. Lehigh Valley advanced 1 3/4 to 59 3/4, the highest price since the segregation of the coal properties, while Southern Railway, International Commerce and Eastern, and Chicago Great Western sold at their highest prices of the year. Park and Tilford and Vivandou climbed to higher ground on merger rumors. General Electric National Lead and International Combustion Engineering advanced 1 to 2 points but National and Loose Wiles Biscuit fell back on profit taking. Foreign exchanges opened steady.

### MORNING STOCK LETTER

Thomson & McKinnon

NEW YORK, September 26.—Carloadings reflect fairly satisfactory business conditions. Placing of orders by the railroads with equipment companies reflects confidence in the belief of better business ahead. We are beginning to get a clearer 20-ficial vision not sufficiently defined as yet, but from now on we should have more confidence in the ultimate results. We still have evidence of pressure on bulges. It is equally clear there is support on reactions. Except for certain specialties the market is not broad enough to encourage following advances.

### MORNING COTTON LETTER

Thomson & McKinnon

NEW YORK, Sept. 26.—As result of heavy rains in Georgia it is possible we will receive some damage reports from that section. Forecast is for showers in all cotton states. Light to moderate business in North Street with buyers reluctant to pay asked prices. More mills north and south are resuming full time. Cotton ideas are becoming smaller. Sentiment is less bullish.

### ENORMOUS DEMAND FOR AMERICAN RYE

(By The Associated Press.) NEW YORK, Sept. 25.—An estimated rye shortage of 130,000,000 bushels in Europe this season, has resulted in an enormous demand for American rye.
